SURVEY OF  
CURRENT BUSINESS

DECEMBER, 1929

No. 100

ISSUED BY  
BUREAU OF THE CENSUS

IMPORTANT NOTICE

*In addition to figures given from Government sources, there are also incorporated for completeness of service figures from other sources generally accepted by the trades; the authority and responsibility for which are noted in the "Sources of Data" on pages 139-142 of the August, 1929, semiannual issue*

# Survey of Current Business No. 100

ITH this issue the editors present the one-hundredth numbered edition. At this time it appears fitting to briefly review the growth of this publication since its inception in the spring of 1921. To understand the reason for its growth is to understand the growth itself. When America entered the World War we were confronted with an amazing lack of facts pertaining to the fundamental necessities such as steel, copper, cotton, wool, leather, cement, etc. This was the beginning of a new era in our economic life in that it compelled American mobilization officers, in cooperation with the Nation's business and industrial executives, to obtain facts hitherto unavailable in order to set up properly the policies of government.

The business depression of 1920-21, consequent upon a post-war boom, also left its impress upon the minds of business leaders everywhere. Out of these conditions, and in the realization that the new order of business required facts and not guesses, the *Survey of Current Business* found its origin.

In 1921 this publication carried data on about 200 individual statistical series, the most of which had very little historical background. With this number there are more than 1,800 individual series, each of which has considerable history for comparative purposes. Were it not for the almost immediate appreciation of the worth of business data on the part of Government, trade, and industry, as represented by trade associations and individual firms, this vast growth in current statistical information would not have been possible.

During the eight years which have elapsed since the first issue of the *Survey of Current Business*, which, incidentally, was only a sample mimeographed set of sheets numbering 10, evidences have been accumulating of the large and growing interest in current business statistics. During this period the Bureau of the Census has undertaken, at the request of about 50 industries, the collection of current information covering such items as production, stocks, orders, unfilled orders, shipments, etc., while correspondence concerning the services of the Department of Commerce in connection with these facts has multiplied many fold.

The monthly *Survey of Current Business* has appropriately been called the "clearing house of business statistics" in that it brings together the current reports on business activities issued by this bureau, as well as those compiled by other governmental agencies and private organizations, including trade associations. The data which are published in the volume cover more than 240 commodities.

In addition to the publication of the monthly number, the *Survey of Current Business* is now issued in the form of weekly supplements in the realization that current statistics are highly perishable and to be of use they must reach the business man at the earliest possible moment. The monthly information contained in these bulletins is republished in the Survey, except for the weekly chart, "Weekly Business Indicators," which has become one of the most important single features. In connection with the weekly business indicators, press statements are issued which have wide publication throughout the country. Services to the press and other interested parties have expanded tremendously over the period so that at the present time much of the work finds expression only in these services.

The *Survey of Current Business*, as at the time of origin, is to-day an important governmental adjunct. It provides current weekly and monthly statistical information on the state of the Nation's business to many branches of Government, including the War Department, the Federal Reserve Board, the Department of Agriculture, and the Treasury Department. Paralleling the demands of the Government are the growing needs of business. Together these are providing, more and more, the facts which are so essential for the setting-up and execution of forward-looking policies.

While it may be too early to say that the utilization of business data has entirely eliminated the business cycle, there is agreement to-day among business leaders everywhere that the wider use of facts will mitigate in a large degree many of the disastrous effects of the one-time recurrent business cycle.

The Nation's business executives, as in 1921, are now engaged in formulating plans to provide an enduring soundness for our economic fabric. It is a singular coincidence and yet entirely fitting that Nos. 1 and 100 of this publication should have reached their readers at a time when interest in business conditions has been so similarly keen, though circumstances are not at all parallel.

---

This issue presents practically complete data for the month of October and contains text covering the early weeks of November (page 1), for which the basic figures in table and chart form are presented regularly in the weekly supplements. As most data covering a particular month's business are not available until from 15 to 30 days after the close of the month, a complete picture of that month's operations can not be presented at an early date, but the weekly supplements give every week the latest data available.

# SURVEY OF CURRENT BUSINESS

PUBLISHED BY

UNITED STATES DEPARTMENT OF COMMERCE

Subscription price of the SURVEY OF CURRENT Business is \$1.50 a year; single copies (monthly), 10 cents, semiannual issues, 25 cents. Foreign subscriptions, \$2.25; single copies (monthly issues), including postage, 14 cents; semiannual issues, 36 cents. Subscription price of COMMERCE REPORTS is \$4 a year; with the SURVEY, \$5.50 a year. Make remittances only to Superintendent of Documents, Washington, D. C., by postal money order, express order, or New York draft. Currency at sender's risk. Postage stamps or foreign money not accepted

		Banking, finance, and insurance-----	14	44-47
		Foreign exchange and trade-----	14	47-48

## PRELIMINARY SUMMARY FOR NOVEMBER

The dollar volume of trade during November, as reflected by check payments covering the early weeks, was considerably greater than in the corresponding period of 1928. Industrial activity, as indicated by operations in steel plants, was lower than in either the preceding month or November of last year. Activity in the automobile industry, as reflected by figures covering Detroit factory employment, was also lower in November than in either the preceding month or the same period in 1928. Petroleum output was substantially lower than in October but was still above the level which prevailed a year earlier. The movement of goods into consumption was slightly lower than in November of last year.

The volume of building contracts awarded during the month was running lower than in either the preceding month or the same period of 1928. Receipts of cattle and hogs showed very little change from a year ago. Wheat receipts, however, were lower than

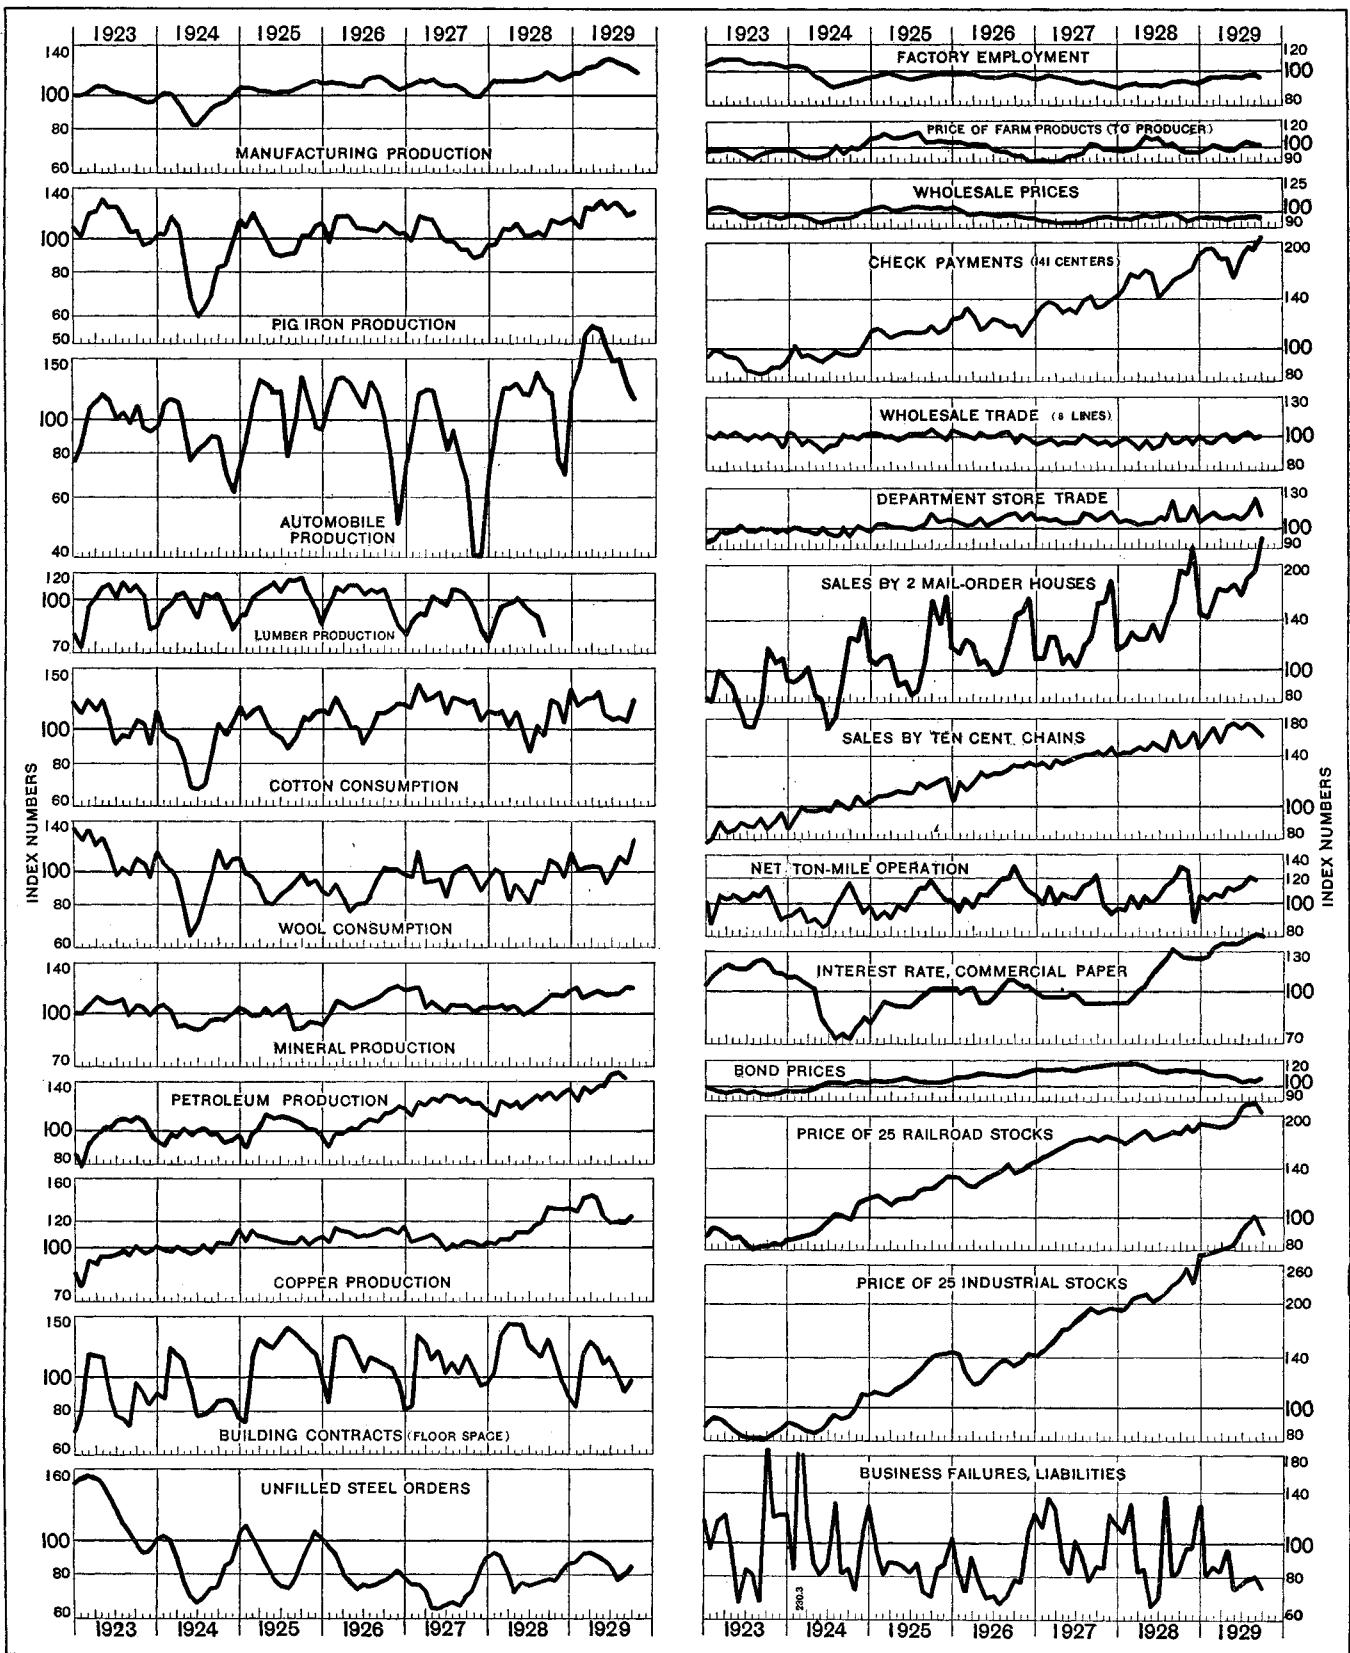

in November of last year, while cotton receipts into sight were on about the same level of last year.

Loans and discounts of Federal reserve member banks, though declining from the high point reached early in the month were higher at the end of November than at the end of the preceding month. The Federal reserve ratio averaged lower than in October but was above the level of last year. Call-money rates averaged lower than in either the preceding month or November a year ago.

Bond prices were somewhat higher than in October but were lower than last year. Interest rates on time funds averaged lower than in either period. Prices for stocks were lower than in either the preceding month or November of last year. Brokers' loans showed a substantial decline from both the preceding month and November a year ago. Business failures showed practically no change from November of last year.

## MONTHLY BUSINESS INDICATORS, 1923-1929

ratio charts—see explanations on inside front cover. The curves on check payments, wholesale trade, 10-cent chains, and department stores have been adjusted for normal seasonal variations, and manufacturing production for the varying number of working days in the month as well.

## MONTHLY BUSINESS INDICATORS

The principal business indicators are shown below, all calculated on a comparable basis, the average for the years 1923 to 1925, inclusive. Thus the table gives a bird's-eye view of the business situation in a concise form, so that trends of the principal indicators may be seen at a glance.

Certain indicators, in which there is a marked seasonal movement, are shown with the average seasonal variations eliminated. as noted below. In this manner a more understanding month-to-month comparison may be made.

\* Seasonal adjustments.

## BUSINESS CONDITIONS IN OCTOBER

### PRODUCTION

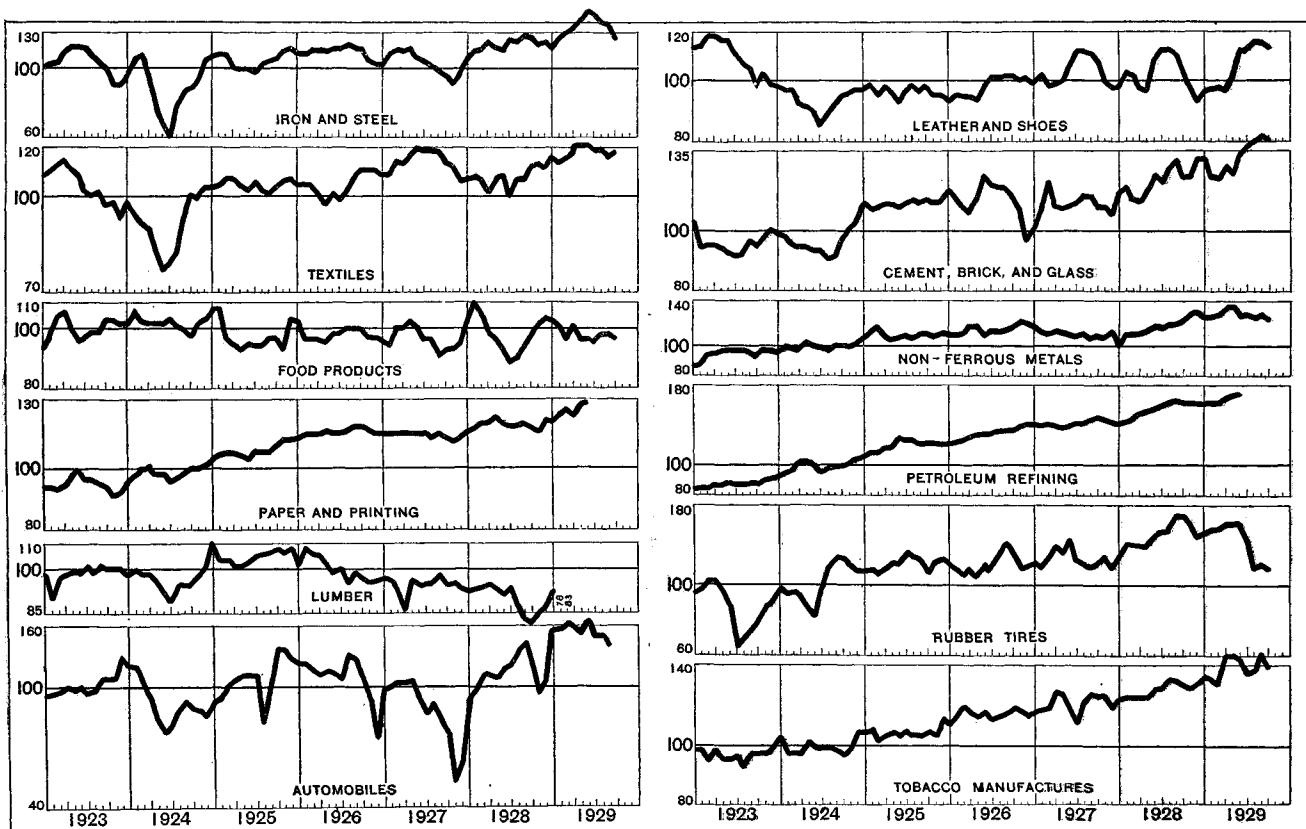

According to the weighted index of the Federal Reserve Board industrial production in October after adjustments for seasonal variations, showed a decline from the previous month but was greater than a year ago. Manufacturing output showed a decrease from September amounting to 4 per cent but was about 3 per cent greater than a year ago. The output of minerals remained the same as the previous month but was more than 6 per cent greater than in October, 1928.

in iron and steel and transportation equipment as contrasted with last year more than offset declines in textiles and lumber.

Wholesale trade in October was greater than in either the previous month or the corresponding period of last year. Declines from September in dry goods, men's clothing, and boots and shoes were more than offset by gains in groceries, meats, hardware, drugs, and furniture. Gains over a year ago were general in all enumerated lines, except men's clothing, which showed a decline.

### MANUFACTURING PRODUCTION BY MAJOR GROUPS

[Relative numbers, monthly average 1923-1925 taken as 100, adjusted for seasonal variations]

### COMMODITY STOCKS

Stocks of commodities held at the end of October showed gains over both the preceding month and October a year ago, the increases over both periods being due to larger holdings of raw materials. Manufactured goods in the hands of manufacturers were held in smaller quantities than in the preceding month and showed no change from a year ago.

### SALES

The general index of unfilled orders for manufactured goods showed a decline from the previous month but was greater than a year ago. Declines from the preceding month in the unfilled orders for textiles and lumber more than offset gains in iron and steel and transportation equipment, principally railroad. Gains

The volume of sales transacted by department stores was substantially greater than in either the previous month or October, 1928. The value of merchandise stocks held by department stores at the end of the month, though showing a gain over the previous month, showed no change from a year ago.

Sales by mail-order houses were considerably larger than in either the preceding month or October of last year. Ten-cent chain stores also registered large gains in sales volume as compared with both periods. The volume of business reported by grocery and drug chains was likewise greater in October than in either the preceding month or the corresponding period of a year ago.

### PRICES

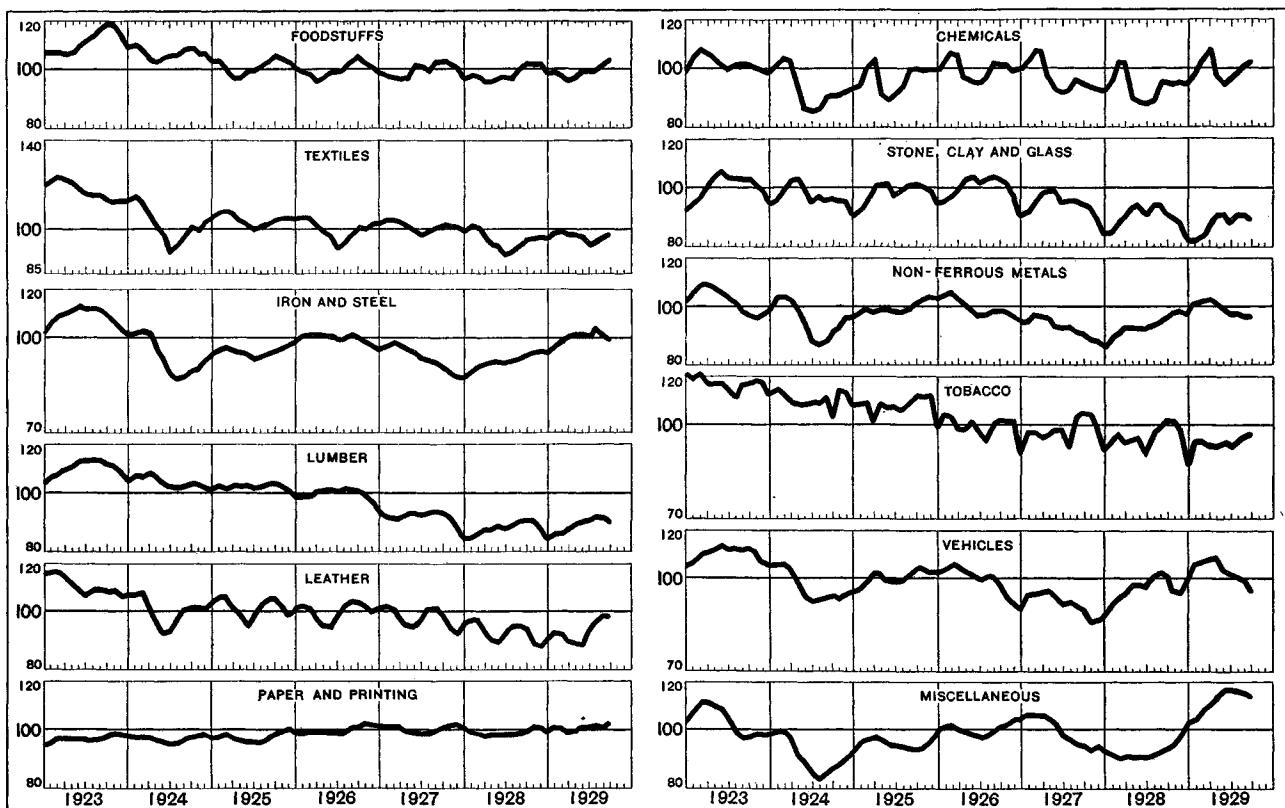

The general level of wholesale prices showed a decline of 2 per cent in October from both the preceding month and the corresponding period of last year. Prices for all major groups of commodities were either lower than in September or showed no change except fuel and lighting, which advanced. Wholesale prices for all groups were lower or unchanged from a year ago, except metals, building materials, and certain miscellaneous items, which advanced.

Classified according to condition wholesale prices for semimanufactures were unchanged from September and showed a gain of 1 per cent over a year ago. Finished manufactures declined 1 per cent from September and 3 per cent from last year. Raw materials showed a decline of 2 per cent from the previous month and no change from a year ago.

than in October, 1928. Increased employment was registered, as compared with September, in factories producing foods, textiles, chemicals, and tobacco products, but the gains were insufficient to offset decreased employment reported by factories producing iron and steel, lumber, stone, clay, and glass, and vehicles. The principal declines from the previous month, amounting to 2 per cent or more, were registered in vehicles and stone, clay, and glass. The gains over a year ago in factory employment were general, increases of 5 per cent or more being registered in factories producing iron and steel, chemicals, and certain miscellaneous products, including automobile tires. Declines in factory employment were reported however, from last year in factories producing stone, clay, and glass products, tobacco products, and vehicles, principally automotive.

### FACTORY EMPLOYMENT, BY GROUPS

[1926 monthly average=100. October, 1929, is latest month plotted]

Farm prices, though declining from the previous month, were more than 2 per cent above the level which prevailed a year ago. The cost of living index showed no change from either the preceding month or the corresponding month of last year. As compared with a year ago, gains in food costs were offset by declines in shelter, clothing, light, and sundries.

### EMPLOYMENT

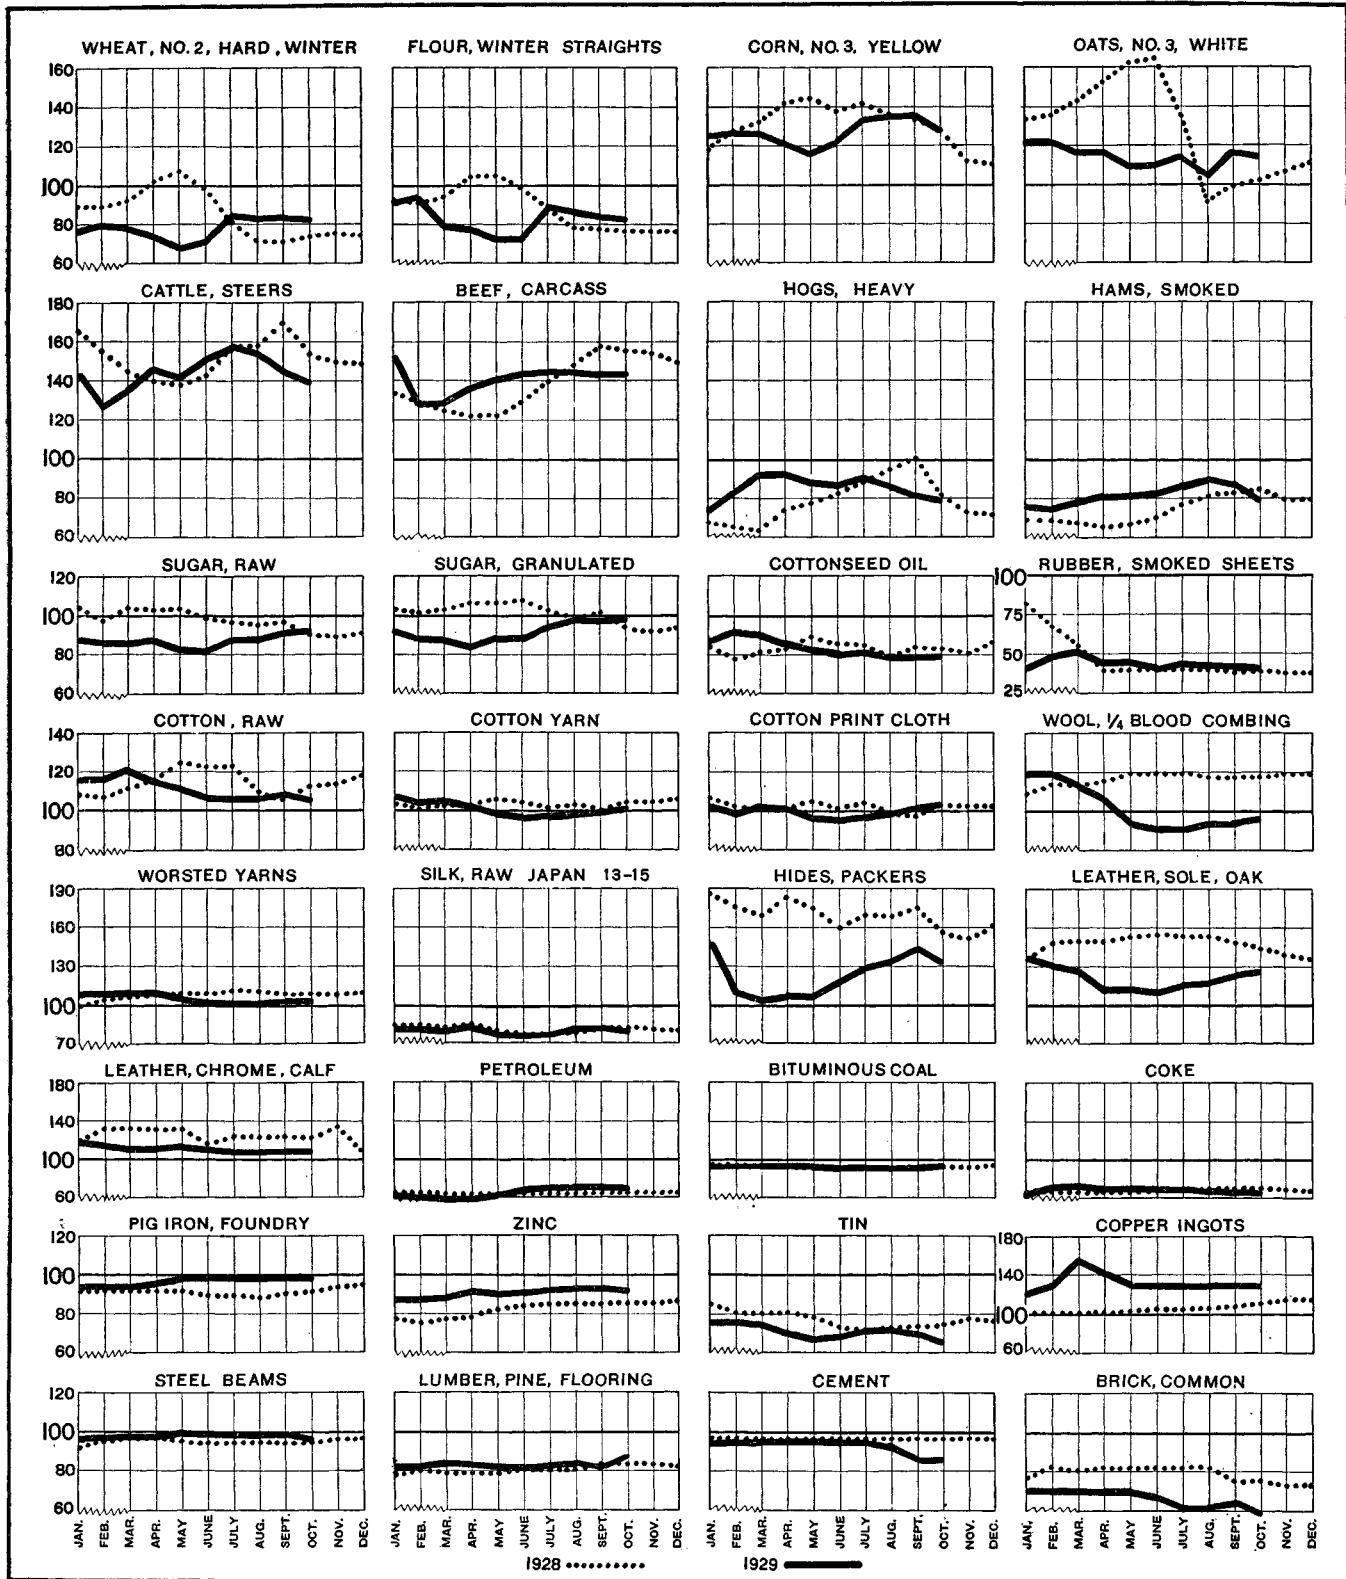

Factory employment, as reflected by the general index, showed a decline from the preceding month amounting to 1 per cent, but was 2 per cent greater

Factory pay-roll payments in October were likewise 1 per cent lower than in the preceding month, but showed a gain of 3 per cent over October, 1928. Pay-roll payments were larger than in September in factories producing food products, textiles, paper and printing, chemicals, nonferrous metals, and tobacco products.

Factory pay-roll payments were larger than in October, 1928, in all groups except stone, clay, and glass, nonferrous metals, tobacco products, and vehicles, which declined, and textiles, which showed no change.

## WHOLESALE PRICES FOR SPECIFIED COMMODITIES

[Relative numbers, 1926 monthly average taken as 100. October, 1929, is latest month plotted. Data from which these charts are drawn are given on the opposite page]

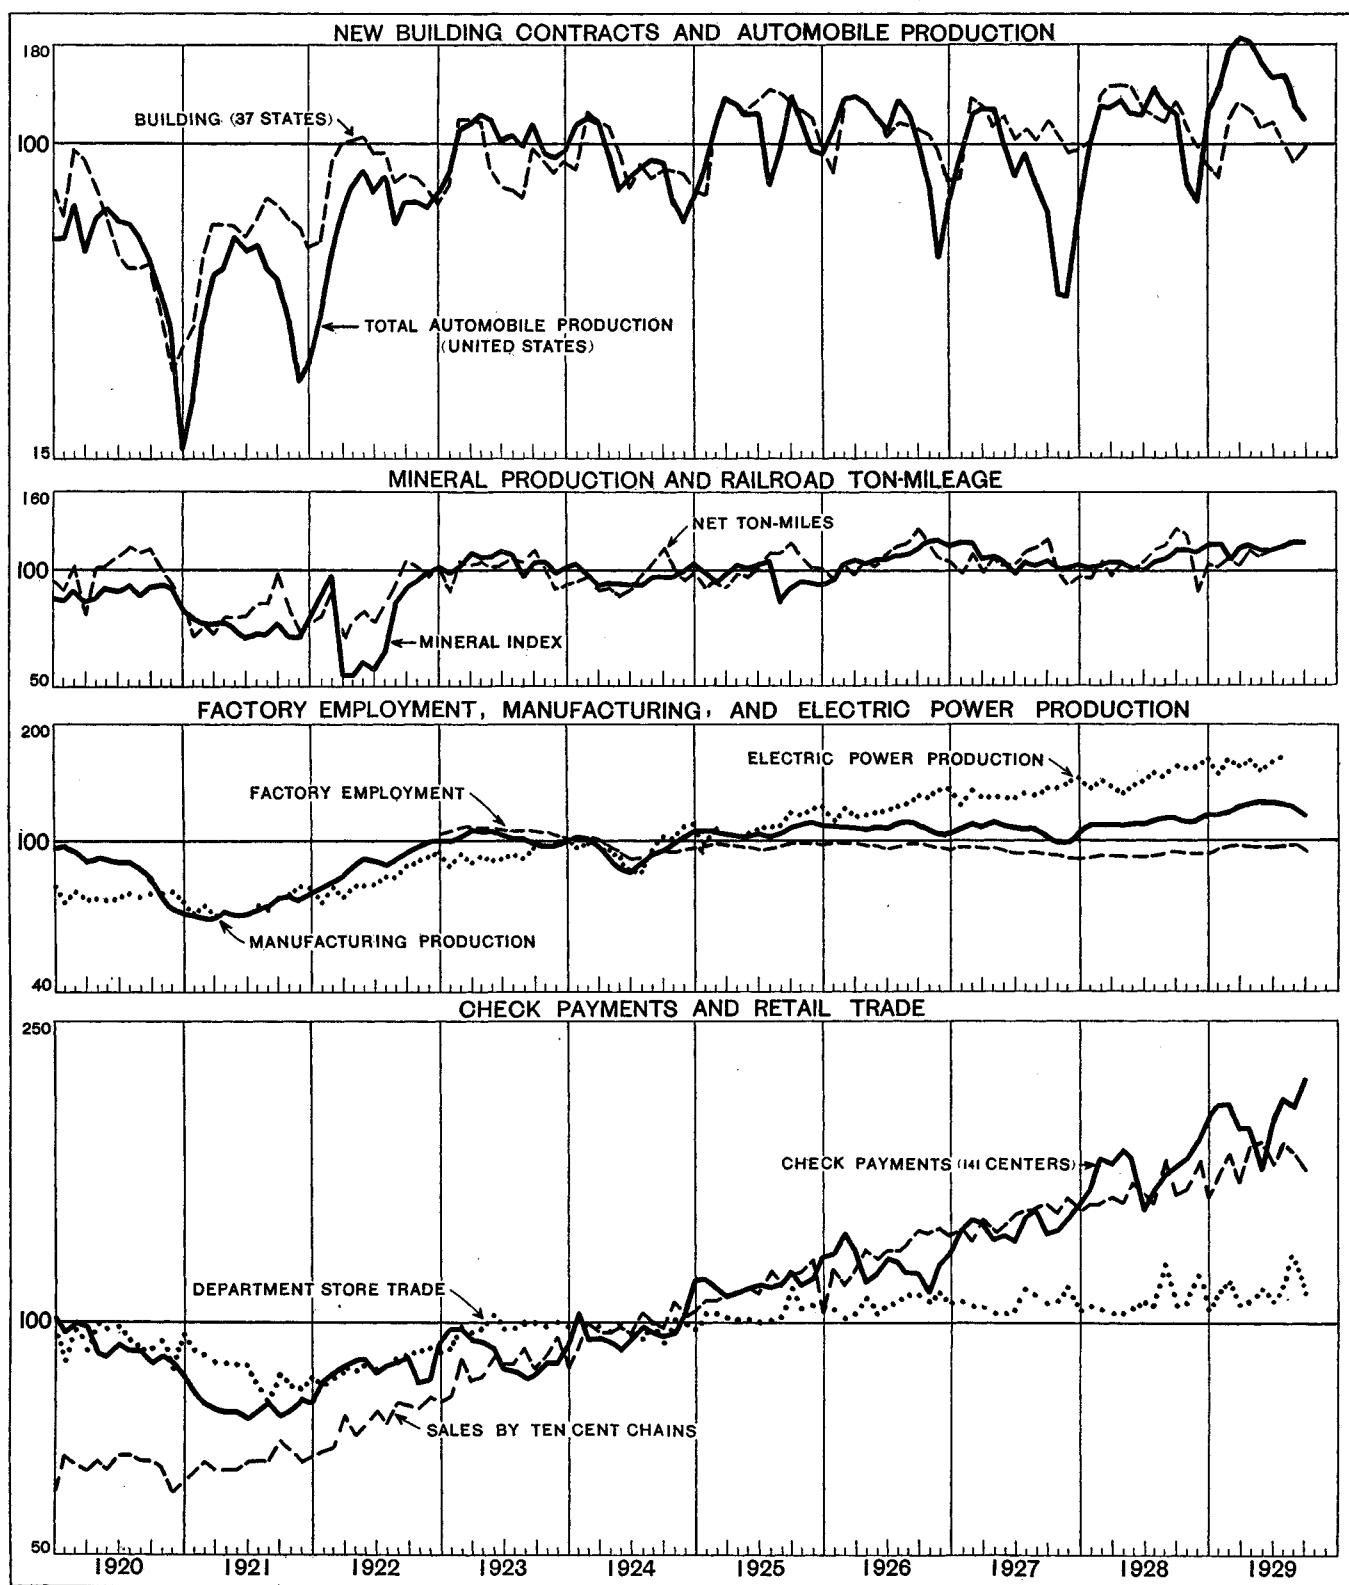

## WHOLESALE PRICES FOR SPECIFIED COMMODITIES

NOTE.—Prices to producer on farm products and market price of wool are from U. S. Department of Agriculture, Bureau of Agriculture Economics, nonferrous metals from the Engineering and Mining Journal-Press, except tin, which is from the American Metal Market. All other prices are from U. S. Department of Labor, Bureau of Labor Statistics. So far as possible all quotations represent prices to producer or at mill.

## MEASURES OF INDUSTRIAL AND COMMERCIAL ACTIVITY

[Relative numbers, monthly average 1923-1925, taken as 100]

## REVIEW BY PRINCIPAL BRANCHES OF COMMERCE AND INDUSTRY

### TEXTILES

The consumption of wool in October showed gains over both the preceding month and October, 1928. For the first 10 months of the year wool consumption showed a gain of 13 per cent over the same period of last year.

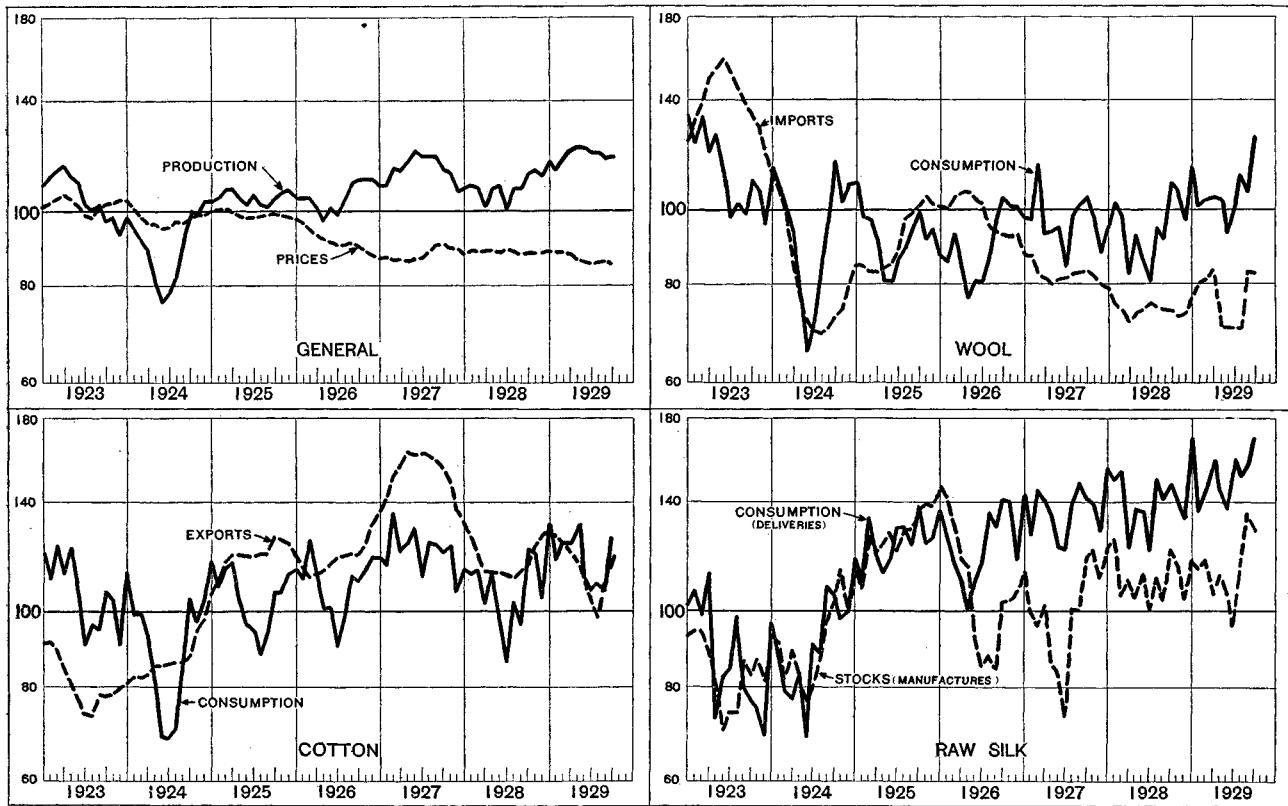

Cotton receipts into sight for the year to date were 9 per cent heavier than in the same period of 1928. Exports of raw cotton in October showed gains over both the previous month and October of last year, but for the year to date cotton exports were almost 10 per cent smaller than in the same period of last year. Consumption of cotton by domestic mills showed substantial gains over both the previous month and October a year ago, while for the first 10 months cotton

Silk machinery showed generally larger activity in the case of broad and narrow looms than in October, 1928, but spinning spindles were less active. Prices for silk averaged lower than in either the preceding month or October a year ago, while the composite price for silk goods, showing no change from the preceding month, was higher than a year ago. Rayon imports in October showed substantial gains over both the preceding month and October of last year. Prices for rayon, showing no change from the previous month, were lower than a year ago.

Imports of burlaps and unmanufactured fibers were larger in October than in either the previous month or the same period of 1928. For the first 10 months of

### THE TEXTILE INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. October, 1929, is latest month plotted. Curves covering imports of wools and exports of cotton are plotted from 12 months' moving monthly average plotted on the end month]

consumption was 12 per cent larger than in the same period of 1928.

Silk imports were substantially larger in October than in either the previous month or the corresponding period of last year. For the calendar year to date imports of silk showed a gain of more than 10 per cent over the corresponding period of a year ago. Deliveries of silk to manufacturing establishments, indicative of silk consumption, were greater in October than in either prior comparative period.

the year burlap imports showed a gain of about 4 per cent and fiber imports an increase of 10 per cent over the corresponding period of a year ago.

Production of pyroxylin-coated textiles was larger than in September but lower than a year ago. For the first 10 months of the year textiles spread with pyroxylin showed a decline of 2 per cent from the same period last year. Unfilled orders for pyroxylin-coated textiles at the end of October were considerably lower than a year ago.

### METALS

Pig-iron production in October was greater than in either the previous month or October of last year. During the calendar year to date the output of pig iron showed an increase of 16 per cent over the same period of last year. Prices for pig iron showed practically no change from the previous month.

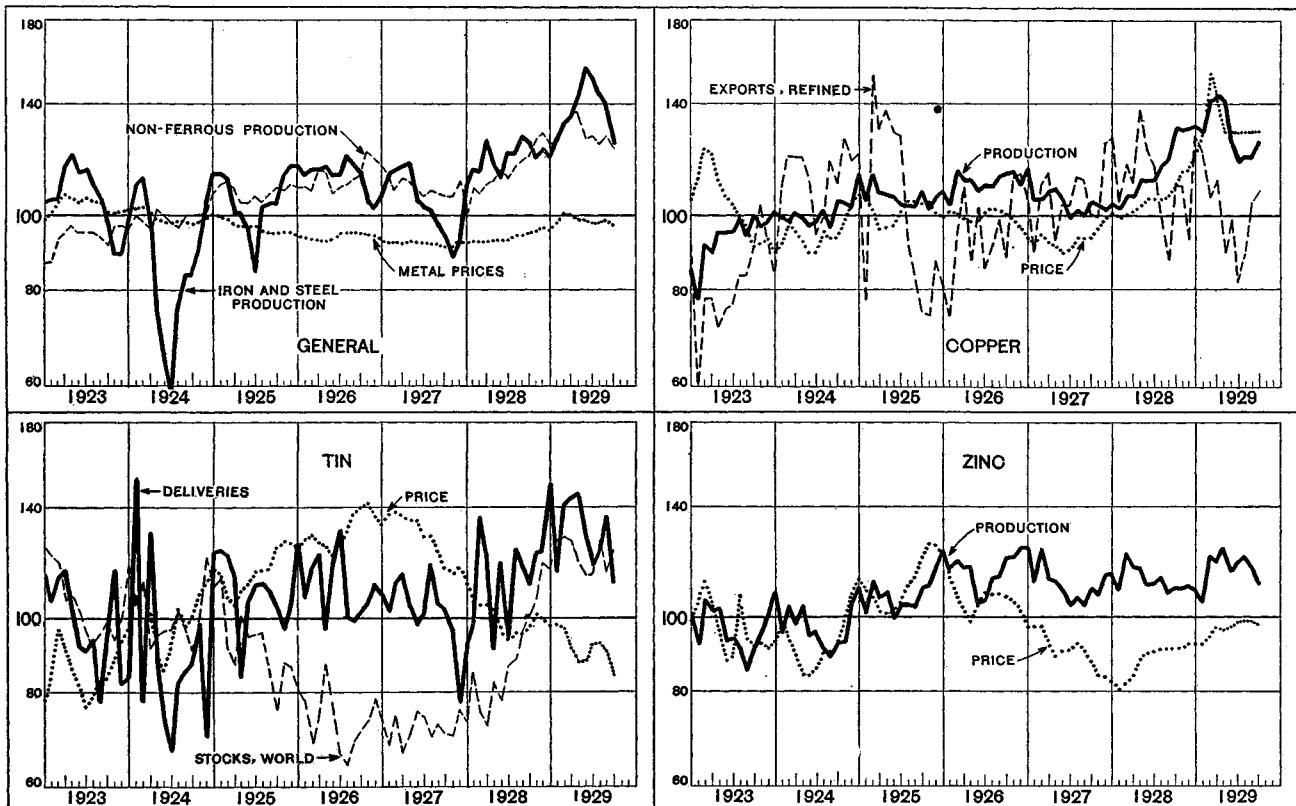

The production of steel ingots showed no change from the previous month but was lower than a year ago, while for the first 10 months of the year steel-ingot output was 15 per cent greater than in the corresponding period of 1928. Unfilled steel orders at the end of October were greater than at the end of either the preceding month or October, 1928.

first 10 months of the year structural-steel bookings showed a gain of 18 per cent over the same period of last year. New orders for fabricated steel plate, on the other hand, showed declines in October from both the previous month and October of last year, but for the year to date fabricated-steel plate bookings were about 2 per cent greater than in the same period of 1928. The output of malleable castings showed a gain over September but declined from a year ago, with new orders making similar comparisons. New orders for machine tools showed a gain in October as compared with the previous month.

Shipments and new orders of electric overhead cranes and electric hoists were substantially greater

### THE METAL INDUSTRIES

[Relative numbers, monthly average 1923-1925, taken as 100. October, 1929, is latest month plotted]

The output of steel sheets by independent steel manufacturers showed a gain over the previous month but was lower than a year ago. Steel-sheet production for the first 10 months of the year was 7 per cent greater than in the same period of last year. Prices for steel were generally lower than in the previous month, but showed only slight change from a year ago.

New orders and production of steel castings were larger than in either the previous month or October of last year, while for the year to date similar conditions prevailed, when compared with the corresponding 10 months of 1928.

New bookings for fabricated structural steel also showed gains in October as compared with both the previous month and October of last year. For the

than in October, 1928. Shipments of electric industrial trucks and tractors were also larger than a year ago. Shipments of motorized fire-extinguisher equipment showed declines in October from both the previous month and the corresponding month of a year ago. Sales of mechanical stokers were substantially greater in October than in either the previous month or October, 1928.

Production of copper by domestic smelters was greater than in September but smaller than a year ago, while for the first 10 months of the year the smelter output of October showed a gain of almost 17 per cent over the same period of last year. Wholesale prices for copper showed no change from the previous month but were higher than a year ago.

### FUELS

The production of bituminous coal showed gains over both the previous month and the same month of 1928. Bituminous-coal prices at the mine averaged higher than in either period.

The output of anthracite coal was larger than in September but somewhat smaller than a year ago. The production of coke, both types, was greater than in either the preceding month or the same period of last year.

### AUTOMOBILES AND RUBBER

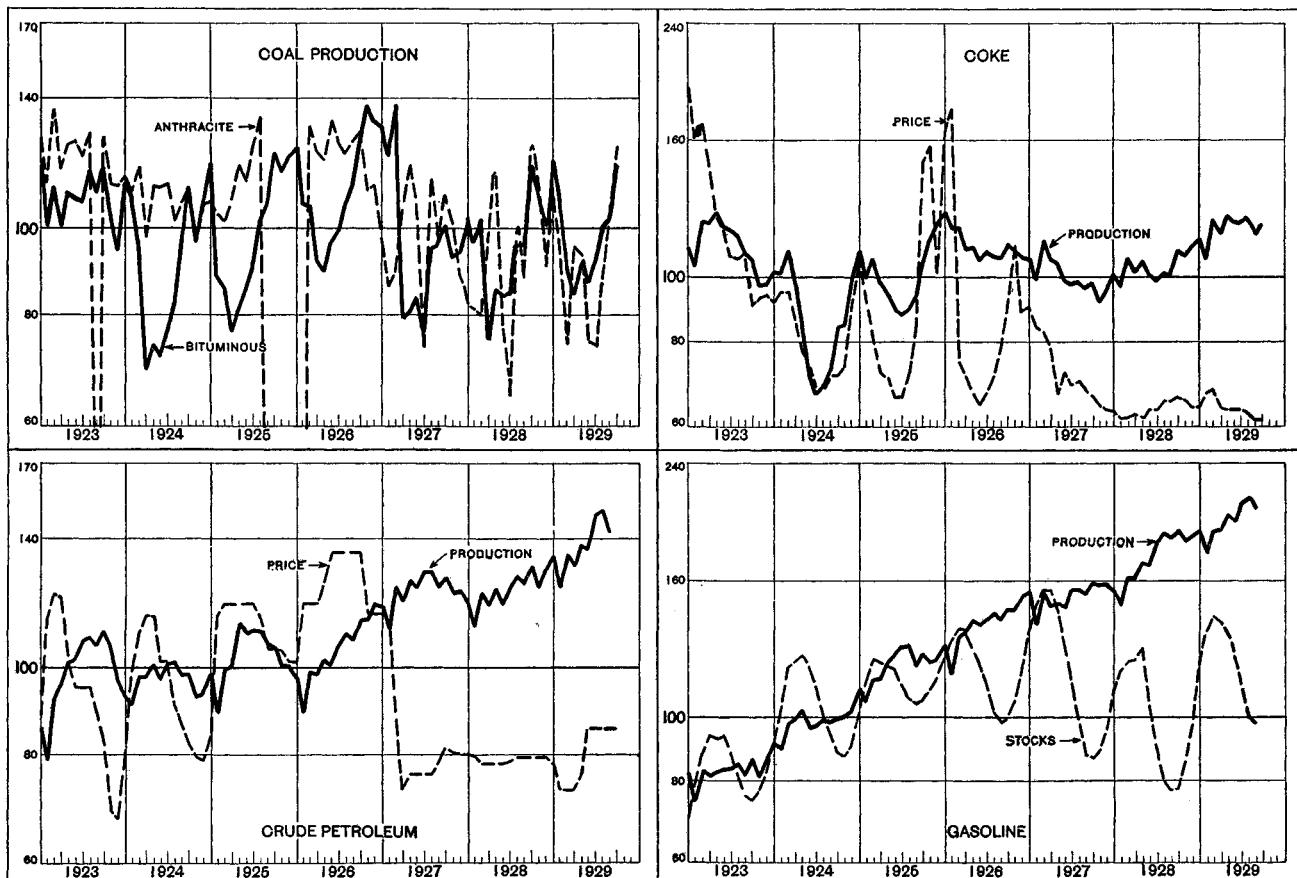

Automobile production in the United States showed declines from both the preceding month and October,

period of 1928. More animals were slaughtered under Federal inspection during October than in the previous month. For the first 10 months of the year declines in slaughtering were registered except for sheep, where an increase of about 5 per cent was shown over the same period of last year.

The output of sole leather in October showed a gain of 10 per cent over the preceding month but was lower by a like percentage than in October, 1928. For the first 10 months of the year sole-leather output showed a decline approximating 12 per cent. Exports of sole and belting leather, although greater than in September, were substantially lower than a year ago,

### THE FUEL INDUSTRIES

[Relative numbers, monthly average 1923-1925 taken as 100. October, 1929, is latest month plotted where data were available]

1928, but for the year to date the total was 30 per cent greater than in the corresponding 10 months of 1928.

Imports of rubber were larger than in September but smaller than a year ago. For the first 10 months of the year rubber imports showed a gain of 34 per cent over the same period of last year.

### HIDES AND LEATHER

Hide and leather imports in October were smaller than in the previous month but showed a gain over last year. Imports were 6 per cent smaller during the first 10 months of the year than in the corresponding

but for the first 10 months of the year exports showed a gain of 6 per cent over the same period of 1928.

The output of upper leather in September showed a decline from the preceding month but was greater than a year ago. October exports of upper leather were larger than those reported for September but showed a decline from a year ago, amounting to 19 per cent.

The production of shoes was larger in October than in either the previous month or the corresponding period of last year. For the first 10 months of the year shoe production showed a gain of almost 5 per cent over the same period of 1928.

### BUILDING AND CONSTRUCTION

Building costs were generally lower in October than a year ago, as indicated by indexes of construction.

The volume of new building contracts awarded in October, measured in floor space, was greater than in the preceding month but showed a substantial decline from a year ago. Measured in value, new contracts let in October showed declines from both periods. For the first 10 months of the year new awards showed a decline of 12 per cent in value and 16 per cent in floor space from the corresponding period of 1928. The decline in total awards from a year ago was very largely due to a decrease in the 10-month's total for residential construction, amounting to almost \$700,000,000.

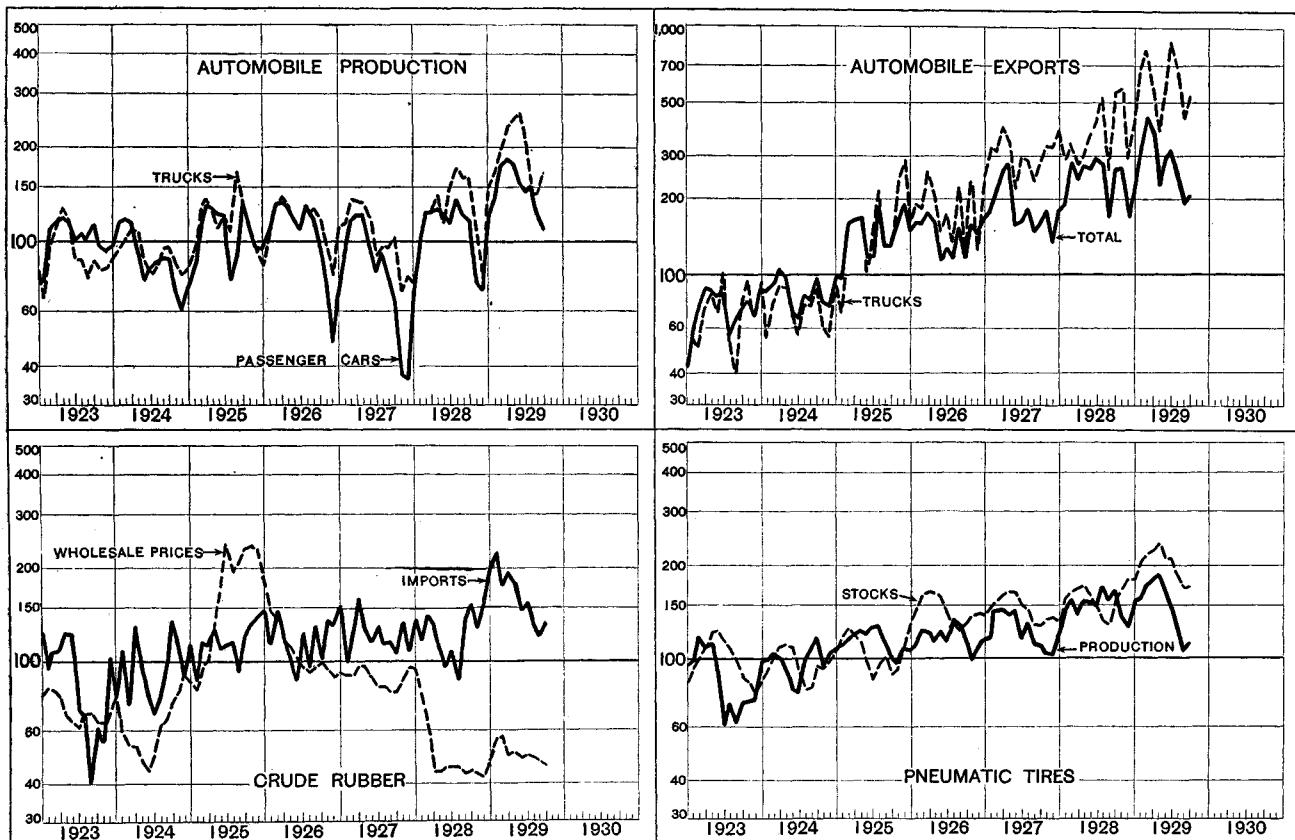

October, 1928, while for the first 10 months of the year a decrease of almost 3 per cent was registered from the same period of last year. Stocks of Portland cement at the mills at the end of October were somewhat more than 5 per cent greater than a year ago.

New contracts let for concrete paving were larger than in either the preceding month or October of last year, but for the calendar year to date a decline of almost 4 per cent was recorded from the same period of 1928.

Shipments of porcelain plumbing fixtures during October were lower than in either the previous month or the same month of last year, with new orders making similar comparisons. For the first 10 months of

### THE AUTOMOBILE AND RUBBER INDUSTRIES

[Relative numbers, monthly average 1923-1925 taken as 100. Where available, October, 1929, is latest month plotted]

### LUMBER AND LUMBER PRODUCTS

The production of Southern pine lumber showed a decline from the corresponding period of last year. The output of California redwood and California white pine, on the other hand, was greater than a year ago. Northern pine lumber production and the output of Northern hemlock were smaller than in October, 1928. The production of flooring, both oak and maple, showed declines from October of last year.

### STONE, CLAY, AND GLASS PRODUCTS

The output of Portland cement during October showed declines from both the previous month and

the year shipments showed a decline of 36 per cent from the corresponding period of a year ago. Shipments of vitreous-china plumbing fixtures in October were likewise smaller than in either comparative period, while the total for the calendar year to date showed a decrease of 5 per cent from the same period of last year. New orders for terra cotta were smaller in October than in either the previous month or the same month of a year ago, while the total for the first 10 months, measured in tonnage, was 20 per cent less than in the same period of 1928. The production and shipments of sand-lime brick in October were smaller than in either the preceding month or the same period of 1928.

### FOODSTUFFS AND TOBACCO

The estimated domestic crop of wheat was substantially lower than the production of last year. The visible supply at the end of October, both in the United States and Canada, was considerably larger than a year ago. Receipts and shipments of wheat at the principal primary domestic markets were smaller than a year ago. Prices were generally higher than a year ago.

The estimated corn crop for the current year was smaller than a year ago. The visible supply of corn at the end of October was substantially greater than a year ago. Receipts and shipments of primary

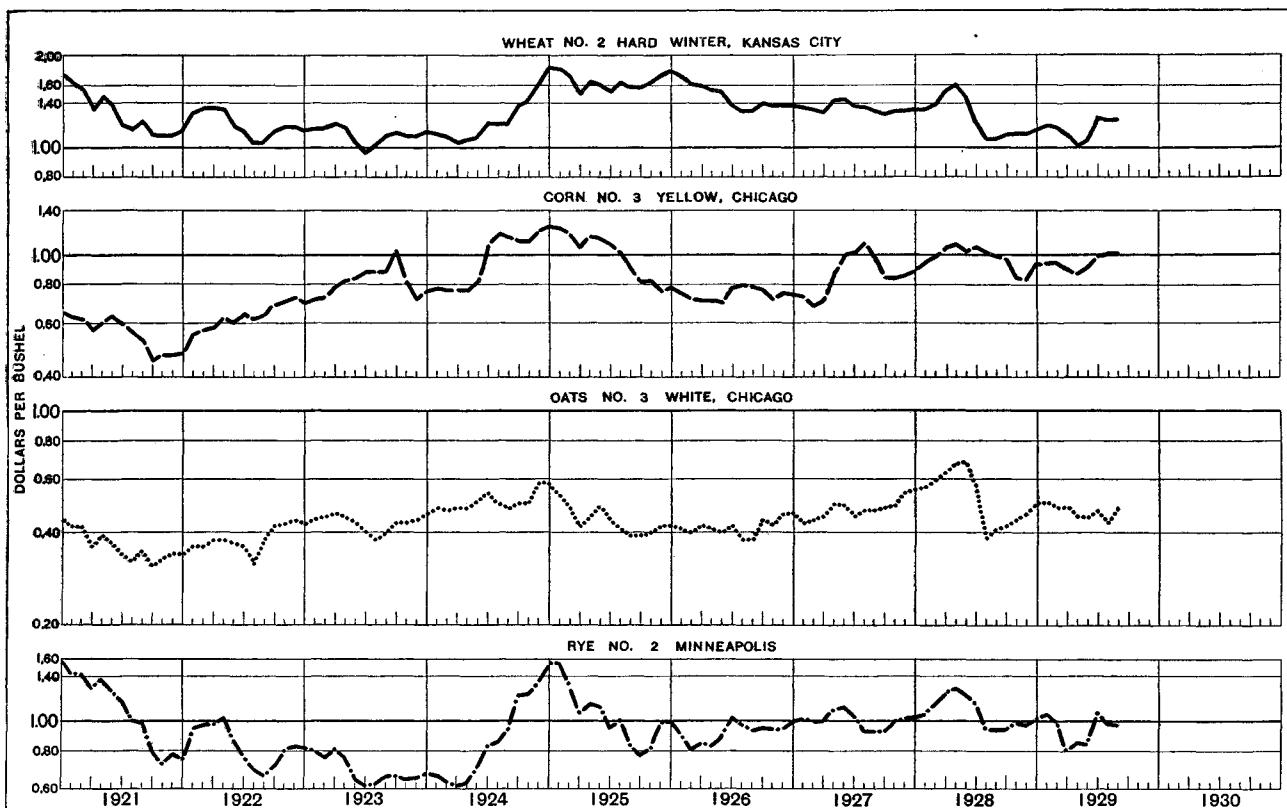

Receipts and shipments of hogs at primary markets were larger than last year, the output of pork products under Federal inspection also showing a gain over last year. Cold-storage holdings were substantially larger than at this time last year. Prices for hogs and pork were generally lower than a year ago.

Receipts of poultry at primary markets were greater than a year ago, while the total catch of fish at the principal fishing ports showed a substantial gain over October of last year. Storage holdings of fish and poultry were larger than a year ago.

The production of creamery butter was greater than a year ago, with storage holdings showing a substan-

### MOVEMENT OF GRAIN PRICES

[Weighted price per bushel. October, 1929, is latest month plotted]

markets were larger than in October of last year. Corn prices were generally lower than a year ago.

The visible supply of oats and barley was greater than a year ago. Oat receipts at principal markets were greater than last year, while receipts of barley showed a decline.

Receipts and shipments of cattle at primary markets were lower than a year ago. The output of beef products under Federal inspection in October showed a gain over last year. Storage holdings at the end of October were considerably greater than a year ago. Prices for cattle and beef were generally lower than a year ago.

tial increase. Prices for butter were unchanged from the previous month but showed a decline from last year. The factory production of cheese was smaller than a year ago. Storage holdings of cheese at the end of October were smaller than last year. Wholesale prices for cheese were generally unchanged from the previous month but showed a decline from a year ago. Egg receipts at the principal markets were lower than a year ago, while storage holdings of case eggs showed a substantial decline from October of last year.

Coffee imports were larger than a year ago, while prices for coffee averaged lower. Tea imports were greater than a year ago, but prices for tea showed no change.

### TRANSPORTATION

The movement of goods by rail during October, as reflected by freight-car loadings, showed a gain over the previous month but was fractionally lower than a year ago. For the first 10 months of the year freight-car loadings showed a gain of about 4 per cent over the same period of 1928. Net operating income of railroads during September was smaller than a year ago.

### DISTRIBUTION MOVEMENT

The volume of trade transacted by mail-order houses and chain stores in October was generally greater than in either the preceding month or October of last year with the totals for the first 10 months of the year likewise showing gains over the corresponding period of

dividend payments showed a gain of 14 per cent over the same period of 1928. Prices for stocks showed a drastic decline from the preceding month but the October averages were above those which prevailed in October, 1928.

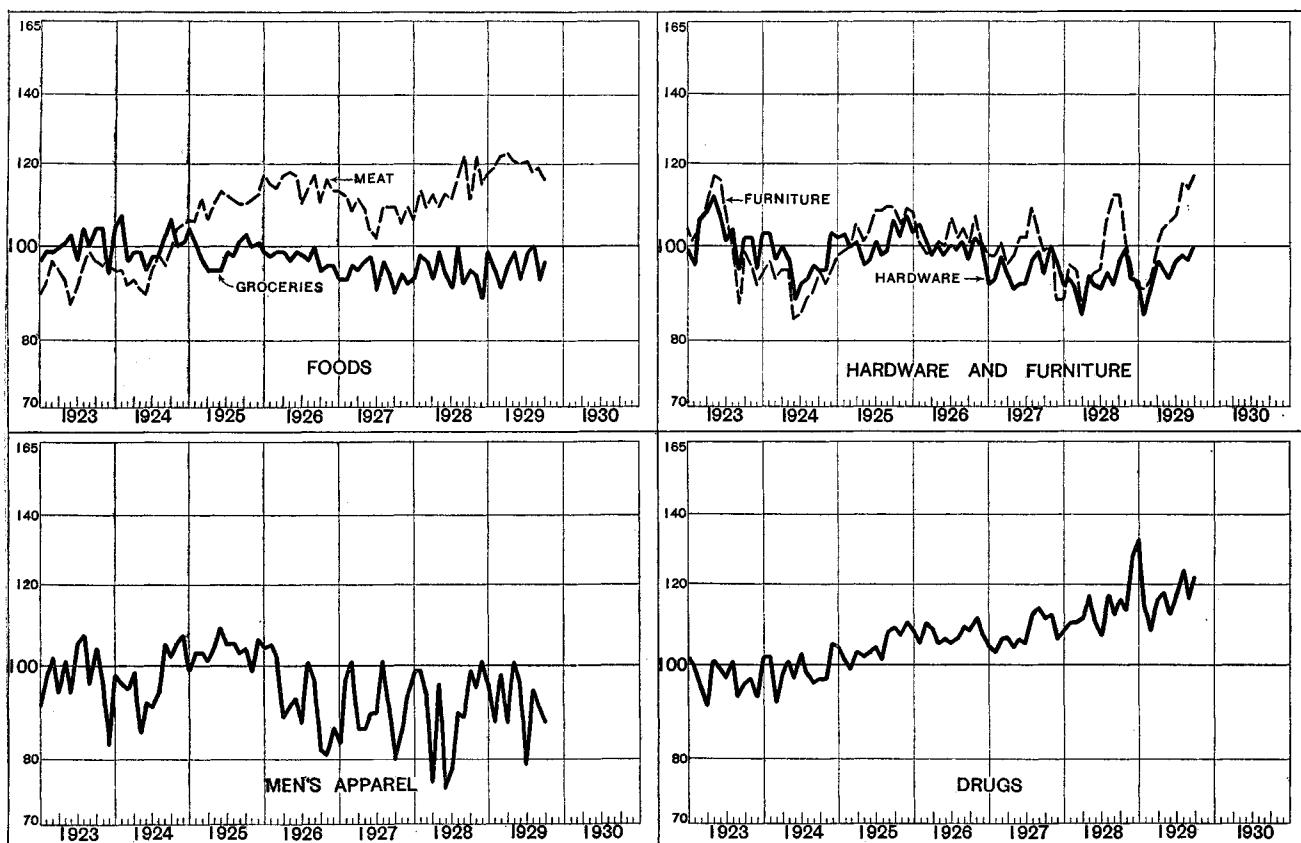

### GOLD, SILVER, AND FOREIGN EXCHANGE

Domestic receipts of gold at the mint were slightly lower than a year ago but showed a large gain over the previous month. Gold imports continued to exceed those reported for the corresponding period of last year. Gold exports were still substantially smaller than the import movement.

The domestic production of silver was greater than in either the preceding month or October of last year.

### WHOLESALE TRADE

[Relative numbers, monthly average 1923-1925 taken as 100. October, 1929, is latest month plotted. Curves are adjusted for seasonal variation]

1928. Advertising in newspapers and magazines in October also showed gains over both prior comparative periods, while expenditures for radio broadcasting by advertisers also showed gains over both periods.

### BANKING AND FINANCE

Check payments were greater than in either the previous month or October a year ago. Loans and discounts of Federal reserve member banks reached a new high level during the month.

Dividend and interest payments were substantially greater than in either the preceding month or October of last year. For the first 10 months of the year

exchange upon the principal foreign currencies showed only slight movement from the rates which prevailed in the previous month. Among the gains reported the English pound, Belgian franc, the Dutch guilder, the Japanese yen, and the Indian rupee were the most prominent; declines were registered in the Canadian dollar and Argentine peso. Contrasted with last year increases were registered in October in the British pound the Belgian franc, the Dutch guilder, the Swedish krone, the Swiss franc, and the Japanese yen, while declines were recorded in the Indian rupee, the Canadian dollar, the Argentine peso and the Brazilian milreis.

## INDEXES OF BUSINESS

The index numbers presented in this table are designed to show the trend in production, prices, trade, etc., by commodities or groups. They consist in general of weighted combinations of series of individual relative numbers; often the individual relative numbers are also given. The function of index and relative numbers is explained on the inside front cover. All of the index numbers, except where noted, are based on the average of the years 1923 to 1925, while maxima and minima are given only since 1923, thus eliminating the abnormal period prior to 1923. Complete descriptions and figures for earlier years may be found in the following issues of the Survey (later data being available in the latest semiannual issues): Production in the July, 1928, issue (No. 83), pages 18 to 22; stocks in the August, 1928, issue (No. 84), pages 20 to 22; new orders in the September, 1928, issue (No. 85), page 19; unfilled orders in the January, 1928, issue (No. 77), pages 22 and 23; wholesale trade in the January, 1928, issue (No. 77), page 21; mail-order and chain stores in the May, 1928, issue (No. 81), pages 20 and 21; department stores in the April, 1928, issue (No. 80), pages 20 and 21; employment, based on 1923 as 100, in the August, 1928, issue (No. 84), page 108; farm prices in the August, 1928, issue (No. 84), page 27; wholesale prices (Department of Labor) in the November, 1927, issue (No. 75), page 24, and the June, 1928, issue (No. 82), page 23; wholesale prices, commercial, in the August, 1928, issue (No. 84), page 26; cost of living in the August, 1928, issue (No. 84), page 27, and the June, 1926, issue (No. 58), page 24.

<sup>1</sup> Compiled by the U. S. Department of Commerce, Bureau of the Census, from reports of 369 automobile-financing organizations. Forty-six of the smaller firms found it impossible to segregate their operations, their totals being shown in the unclassified group. This summary is subject to revision in subsequent issues as reports are received from additional firms.

FACTORY EMPLOYMENT: INDEXES BY GROUPS<sup>1</sup>

## TREND OF BUSINESS MOVEMENTS

The following table contains a summary of the monthly figures, designed to show the trend in important industrial and commercial movements. These data represent continuations of the figures presented in the latest semiannual number (August, 1929), in which monthly figures for 1928 and 1929 may be found, together with explanations as to the sources and exact extent of the figures quoted. The figures given below should always be read in connection with those explanations. Data on stocks, unfilled orders, etc., are given as of the end of the month referred to.

The cumulatives shown are through October, except where otherwise noted. Earlier data for items shown here may be found on pages 27 to 138 of the August, 1929, "Survey"	1929					1928		Per cent increase (+) or decrease (-)	CUMULATIVE TOTAL FROM JAN. 1 THROUGH OCT. 31		Per cent increase (+) or decrease (-) cumulative 1929 from 1928	
	June	July	August	September	October	September	October		Oct., 1929 from Sept., 1929	Oct., 1929 from Oct., 1928

# CHIEF FUNCTIONS OF THE DEPARTMENT OF COMMERCE

R. P. LAMONT, Secretary of Commerce

JULIUS KLEIN, Assistant Secretary of Commerce.

EPHRAIM F. MORGAN, Solicitor

## AERONAUTICS BRANCH

CLARENCE M. YOUNG, Assistant Secretary of Commerce for Aeronautics

Establishment of civil airways and maintenance of aids to air navigation; inspection and registration of aircraft and licensing of pilots; enforcement of air traffic rules; investigation of accidents; encouragement of municipal air ports; fostering of air commerce; scientific research in aeronautics; and dissemination of information relating to commercial aeronautics. (Some of these functions are performed by special divisions of the Lighthouse Service, the Bureau of Standards, and the Coast and Geodetic Survey.)

## BUREAU OF THE CENSUS

WILLIAM M. STEUART, Director

Taking censuses of population, mines and quarries, water transportation, and religious bodies every 10 years; censuses of agriculture and electrical public utilities every 5 years; and a census of manufactures every 2 years.

Compilation of statistics of wealth, public debt and taxation, including financial statistics of local governments, every 10 years; annual compilation of financial statistics of State and municipal governments.

Compilation of statistics of marriage, divorce, births, deaths, and penal and other institutions annually, and of death rates in cities and automobile accidents weekly.

Compilation quarterly or monthly, of statistics on cotton, wool, leather, and other industries; annually of forest products, and publication monthly of Survey of Current Business.

## BUREAU OF FOREIGN AND DOMESTIC COMMERCE

WILLIAM L. COOPER, Director

The collection of timely information concerning world market conditions and openings for American products in foreign countries, through commercial attaches, trade commissioners, and consular officers, and its distribution through weekly Commerce Reports, bulletins, confidential circulars, the news and trade press, and district and cooperative offices in 65 cities.

The maintenance of commodity, technical, and regional divisions to afford special service to American exporters and manufacturers.

The compilation and distribution of lists of possible buyers and agents for American products in all parts of the world and publication of weekly lists of specific sales opportunities abroad.

The publication of statistics on imports and exports.

The study of the processes of domestic trade and commerce.

## BUREAU OF STANDARDS

GEORGE K. BURGESS, Director

Custody, development, and construction of standards of measurement, quality, performance, or practice; comparison of standards used by scientific or other institutions; determination of physical constants and properties of materials; researches and tests on materials and processes; and publication of scientific and technical bulletins reporting results of researches and fundamental technical data.

Preparation of specifications for Government purchases, through the Federal Specifications Board.

Collection and dissemination of information concerning building codes and the planning and construction of houses.

Establishment of simplified commercial practices through cooperation with business organizations in order to reduce the wastes resulting from excessive variety in commodities.

## BUREAU OF MINES

SCOTT TURNER, Director

Technical investigations in the mining, preparation, and utilization of minerals, including the study of mine hazards and safety methods and of improved methods in the production and use of minerals.

Testing of Government fuels and management of the Government Fuel Yard at Washington.

Research on helium and operation of plants producing it.

Studies in the economics and marketing of minerals and collection of statistics on mineral resources and mine accidents.

The dissemination of results of technical and economic researches in bulletins, technical papers, mineral resources series, miners' circulars, and miscellaneous publications.

## BUREAU OF FISHERIES

HENRY O'MALLEY, Commissioner

The propagation and distribution of food fish and shellfish, in order to prevent the depletion of the fisheries; investigations to promote conservation of fishery resources; the development of commercial fisheries and agriculture; study of fishery methods; improvements in merchandising and collection of fishery statistics; administration of Alaska fisheries and fur seals; and the protection of sponges off the coast of Florida.

## BUREAU OF LIGHTHOUSES

GEORGE R. PUTNAM, Commissioner

Maintenance of lighthouses and other aids to water navigation. Establishment and maintenance of aids to navigation along civil airways.

Publication of Light Lists, Buoy Lists, and Notices to Mariners, giving information regarding these aids to navigation.

## COAST AND GEODETIC SURVEY

RAYMOND S. PATTON, Director

Survey of the coasts of the United States and publications of charts for the navigation of the adjacent waters, including Alaska, the Philippine Islands, Hawaii, Porto Rico, the Virgin Islands, and the Canal Zone; interior control surveys; magnetic surveys, tide and current observations, and seismological investigations.

Publication of results through charts, coast pilots, tide tables, current tables, and special publications.

## BUREAU OF NAVIGATION

ARTHUR J. TYLER, Commissioner

Superintendence of commercial marine and merchant seamen. Supervision of registering, enrolling, licensing, numbering, etc., of vessels under the United States flag, and the annual publication of a list of such vessels.

Enforcement of the navigation and steamboat inspection laws, including imposition of fees, fines, tonnage taxes, etc.

## STEAMBOAT INSPECTION SERVICE

DICKERSON N. HOOVER, Supervising Inspector General

The inspection of merchant vessels, including boilers, hulls, and life-saving equipment; licensing of officers of vessels; certification of able seamen and lifeboat men; and the investigation of violations of steamboat inspection laws.

## UNITED STATES PATENT OFFICE

THOMAS E. ROBERTSON, Commissioner

The granting of patents and the registration of trade-marks, prints, and labels after technical examination and judicial proceedings.

Maintenance of library with public search room, containing copies of foreign and United States patents and trade-marks. Recording bills of sale, assignments, etc., relating to patents and trade-marks. Furnishing copies of records pertaining to patents.

Publication of the weekly Official Gazette, showing the patents and trade-marks issued.

## RADIO DIVISION

W. D. TERRILL, Chief

Inspection of radio stations on ships; inspection of radio stations on shore, including broadcasting stations; licensing radio operators; assigning station call letters; enforcing the terms of the International Radiotelegraphic Convention; and examining and settling international radio accounts.
