Explore With Our Data Tools

bea
Bureau of Economic Analysis
U.S. DEPARTMENT OF COMMERCE

Interactive Tables

Find the numbers you need in a flash, whether you're looking for national, international, regional or industry data. With BEA's interactive tables you can:

- Create customized charts
- Share your data with social media tools
- Download data as comma-separated files, spreadsheets or PDFs

apps.bea.gov/itable/

API

Search, retrieve and analyze data with our application programming interface designed for developers and analysts. With BEA's API you can:

- Access the subsets of data you need for your analytical tools
- Retrieve data in JSON or XML format
- Get metadata with HTTPS requests and use extensive online documentation

apps.bea.gov/API/signup/index.cfm

bea.R

Use the R programming language and its universe of tools to do even more with BEA's API. With the bea.R open-source tool you can:

- Quickly and conveniently pull the latest data into R
- Search, analyze and visualize data faster and in new ways
- Convert datasets into the format you need

github.com/us-bea — *While you're there, check out the eu.us.opendata R library to compare harmonized BEA and Eurostat datasets.*
