Media: Jeannine Aversa (301) 278-9003 Jeannine.Aversa@bea.gov

Gross Domestic Product by Industry: Second Quarter 2017 Annual Update: 2014 through First Quarter 2017 *Mining Led Growth in the Second Quarter*

Mining; professional, scientific, and technical services; and health care and social assistance were the leading contributors to the increase in U.S. economic growth in the second quarter of 2017. According to gross domestic product (GDP) by industry statistics released by the Bureau of Economic Analysis, 17 of 22 industry groups contributed to the overall 3.1 percent increase in real GDP in the second quarter.

- For the mining industry, real value added—a measure of an industry’s contribution to GDP—increased 28.6 percent in the second quarter, after increasing 12.1 percent in the first quarter. This was the largest increase since the fourth quarter of 2014 and primarily reflected increases in both oil and gas extraction and support activities for mining.
- Professional, scientific, and technical services increased 5.1 percent, after increasing 0.1 percent. This was the largest increase since the third quarter of 2014.
- Health care and social assistance increased 4.7 percent, after increasing 3.7 percent. The second quarter growth primarily reflected an increase in ambulatory health care services.

Table 8. Gross Output by Industry Group
