BEA 05-02

### **County Estimates of Compensation by Industry: 1998-2003**

The Bureau of Economic Analysis (BEA) today releases for the first time county estimates of compensation by industry. Compensation—the sum of wage and salary disbursements and supplements to wages and salaries—is a key statistic in the personal income account. The compensation by industry estimates for 1998-2003 are presented in a new table—CA06, Compensation of Employees by Industry that can be accessed interactively at [www.bea.gov/bea/regional/reis](http://www.bea.gov/bea/regional/reis).

The county estimates by industry for 2003 are available 13 months after the end of the calendar year. This release marks an acceleration, by 4 months, in the availability of detailed industry statistics for local areas. Previously, the earliest release of local area estimates by industry was 17 months after the end of the year when earnings by industry—the sum of compensation and proprietors' income—was presented. This acceleration of the release of a key component of substate personal income meets BEA's Strategic Plan goal of improving the timeliness of county-level personal income and its components.

The estimates of compensation by industry, cover 114 industries and aggregates for 3,111 counties. In addition to the county estimates, BEA also is releasing compensation by industry for metropolitan areas, micropolitan areas, combined statistical areas, and BEA economic areas. A sample table for King County, Washington is attached.

Tables presenting the comprehensive measure of personal income for local areas—including CA05, Personal Income by Major Source and Earnings by Industry—will be released April 27, 2005.

D. Not shown to avoid disclosure of confidential information, but the estimates for this item are included in the total.

1. The estimates of compensation for 2001-2003 are based on the 2002 North American Industry Classification System (NAICS).
2. Total average compensation per job is compensation of employees received divided by total full-time and part-time wage and salary employment.
3. "Other" consists of the wage and salary disbursements of U.S. residents employed by international organizations and foreign embassies and consulates in the United States.
