

## National Income and Product Accounts Tables

This section presents revised annual estimates for 1997–99, revised quarterly estimates for 1997:I–2000:I, and the “advance” estimates for 2000:II for nearly all of the full set of tables of the national income and product accounts (NIPAs); these estimates were released on July 28, 2000. For information about the revision, see “Annual Revision of the National Income and Product Accounts” in this issue.

In this annual revision, a new table 7.20 has been added. It shows annual chain-type quantity and price indexes for personal consumption expenditures by type of expenditure, and it corresponds to the presentation of the chained-dollar estimates in table 2.5.

As indicated, the tables present annual [A], quarterly [Q], and monthly [M] estimates.
