1. The Coronavirus Aid, Relief, and Economic Security Act (CARES) authorized funding for loans to help small businesses and nonprofit institutions cover payroll and other operational expenses. BEA used data from the Small Business Administration to allocate the forgivable portion of the business loans across industries. For more information, see ["How does the Paycheck Protection Program of 2020 impact the national income and product accounts \(NIPAs\)?"](#).

NOTE: For national statistics, BEA publishes levels and changes at an annualized rate. To be consistent, the figures in this table also are annualized. For more information, see the FAQ ["Why does BEA publish estimates at annual rates?"](#) on BEA's website.

Data on this table will be superseded by updated estimates.
