• **Equity interest** is the U.S. Reporter's direct ownership in the total equity (voting and nonvoting) of the affiliate. Examples of nonvoting equity include nonvoting stock and a limited partner's interest in a partnership.

• **Voting interest** is the U.S. Reporter's direct ownership in just the voting equity of the affiliate. Examples of voting equity include voting stock and a general partner's interest in a partnership. Thus, a U.S. Reporter could have a 100 percent direct voting interest in an affiliate but own less than 100 percent of the affiliate's total equity.

Section A — Employment

Report the number of employees on the payroll at the end of FY 2022 including part-time employees, but excluding temporary and contract employees not included on your payroll records. A count taken at some other date during the reporting period may be given provided it is a reasonable estimate of employees on the payroll at the end of FY 2022. If the number of employees at the end of FY 2022 (or when the count was taken) was unusually high or low due to temporary factors (e.g., a strike), enter the number of employees that reflects normal operations. If the number of employees fluctuates widely during the year due to seasonal business variations, report the average number of employees on the payroll during FY 2022. Base such an average on the number of employees on the payroll at the end of each pay period, month or quarter. If precise figures are not available, give your best estimate.

Part V — U.S. Exports To and U.S. Imports From Majority-Owned Foreign Affiliate

IMPORTANT NOTES

Report U.S. exports of goods to and U.S. imports of goods from the foreign affiliate in FY 2022. Report all goods that physically left or entered the U.S. customs area. Report data on a "shipped" basis, i.e., on the basis of when and to (or by) whom the goods were shipped. This is the same basis as official U.S. trade statistics to which these data will be compared. Do **not** record a U.S. import or export if the goods did not physically enter or leave (i.e., were not physically shipped to or from) the United States, even if they were charged to the foreign affiliate by, or charged by the foreign affiliate to, a U.S. person.

Foreign affiliates normally keep their accounting records on a "charged" basis, i.e., on the basis of when and to (or by) whom the goods were charged. The "charged" basis may be used if there is no material difference between it and the "shipped" basis. If there is a material difference, the "shipped" basis must be used or adjustments made to the data on a "charged" basis to approximate a "shipped" basis. The data should include goods only; they should **EXCLUDE** services.

Capital goods — INCLUDE capital goods but exclude the value of ships, planes, railroad rolling stock, and trucks that were temporarily outside the United States transporting people or goods.

Consigned goods — INCLUDE consigned goods in the trade figures when shipped or received, even though they are not normally recorded as sales or purchases, or entered into intercompany accounts when initially consigned.

In-transit goods — EXCLUDE from exports and imports the value of goods that are in-transit. In-transit goods are goods that are not processed or consumed by residents in the intermediate country(ies) through which they transit; the in-transit goods enter that country(ies) only because that country(ies) is along the shipping lines between the exporting and importing countries. In-transit imports are goods en route from one foreign country to another via the United States (such as from Canada to Mexico via the United States), and in-transit exports are goods en route from one part of the United States to another part via a foreign country (such as from Alaska to Washington State via Canada).

Packaged general use computer software — INCLUDE exports and imports of packaged general use computer software. Value such exports and imports at the full transaction value, i.e., the market value of the media on which the software is recorded and the value of the information contained on the media. **EXCLUDE** exports and imports of customized software designed to meet the needs of a specific user. This type of software is considered a service and should not be included as trade in goods. Also **EXCLUDE** negotiated leasing fees for software that is to be used on networks.

Natural gas, electricity, and water — Report **ONLY** the product value of natural gas, electricity, and water that you produce or sell at wholesale as exports and imports of goods. **DO NOT** report the service value (transmission and distribution).

See **Instruction Booklet, Part V.**

97 On what basis were the trade data in the section prepared? — Mark (X) one.

- 2 ☐ "Charged" basis without adjustments, because there is no material difference between the "charged" and "shipped" bases.

2022 ANNUAL SURVEY OF U.S. DIRECT INVESTMENT ABROAD
FORM BE-11B — ADDITIONAL INSTRUCTIONS BY ITEM

Part IV, Section D — Distribution of Sales or Gross Operating Revenues

79 — 82

Disaggregate the total sales or gross operating revenues into sales of goods, sales of services, and investment income.

80 Sales of goods — Goods are normally economic outputs that are tangible. Sales of goods includes, but are not limited to:

- Mass produced media, including exposed film, video tapes, DVDs, audio tapes, and CDs.
- Books. NOTE: Report revenues associated with the design, editing, and marketing activities for producing and distributing books that you publish and sell as sales of services.
- Energy trading activities where you take title to the goods. NOTE: If you act in the capacity of a broker or agent to facilitate the sale of goods and you do not take title to the goods, report your revenue (i.e., commissions) as sale of services in **81**.
- Bulk sales of newspaper and periodicals sold in retail stores. NOTE: Report subscription sales as sales of services in **81**.
- Packaged general use computer software.
- Structures sold by businesses in real estate.
- Revenues earned from building structures by businesses in construction.
- Electricity, natural gas, and water. NOTE: Revenues derived from transmitting and/or distributing these goods, as opposed to revenues derived from the sale of the actual product, should be reported as sales of services in **81**.

81 Sales of services, including intellectual property rights —

Services are normally economic outputs that are intangible. Sales of services include, but are not limited to:

- Advertising revenue, including placement of ads in print, broadcast, or digital media.
- Commissions and fees earned by companies engaged in finance and real estate activities.
- Commissions earned by agents or brokers (i.e., wholesalers) who act on behalf of buyers and sellers in the wholesale distribution of goods. NOTE: Agents or brokers do not take title to the goods being sold.

- Newspapers and periodicals sold through subscriptions, whether by mail, electronic subscription, or other means. NOTE: Report bulk sales as sales of goods in **80**.
- Transportation, including by air, rail, tanker, truck, or pipeline, and warehousing.
- Income from transactions in intellectual property, including franchise fees and the rights to use, reproduce, and/or distribute intellectual property, including:
 - patents, process, trade secrets, and trademarks;
 - books or music, recorded performance and events, and broadcasting live performance and events, excluding on physical media;
 - general use computer software, excluding on physical media.
- Computer services, including sales of customized software, cloud computing and data storage services.
- Electricity, natural gas, and water transmission and distribution.
- Report fees or commissions earned from operating electronic markets or platforms that bring together buyers and sellers using the Internet or other electronic means, without taking ownership of the goods nor providing the services being sold.
- Mining service including drilling wells, exploration, and surveying. Includes both initiated and proposed projects.
- Real estate rental income. NOTE: report in columns (2) through (7) based on location of the property.

82 Investment income — Report dividends and interest generated by finance and insurance activities as investment income. NOTE: Report commissions and fees as sales of services in **81**.

Finance or insurance companies that include investment income in gross operating revenues should report the source of such investment income in columns (2) through (7) based on the location of the issuer of the financial instrument whether publicly issued or privately placed. If the location of the issuer is unknown, then substitute the nationality of the issuer. If both the location and nationality of the issuer are unknown, and an intermediary (e.g., trustee, custodian, or nominee) is used to manage the investment (financial instrument or real estate) use the country of location of the intermediary.

Special Instructions for Dealers in Financial Instruments, Finance Companies, Insurance Companies, and Real Estate Companies

A. Certain gains (losses) for (1) dealers in financial instruments and finance and insurance companies, and (2) real estate companies.

1. Dealers in financial instruments (including securities, currencies, derivatives, and other financial instruments) and finance and insurance companies — INCLUDE in 48 :

- impairment losses as defined by FASB ASC 320,
- realized gains and losses on trading or dealing,
- unrealized gains or losses, due to changes in the valuation of financial instruments, that flow through the income statement, and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE from **48**, unrealized gains or losses due to changes in the valuation of financial instruments that are taken to other comprehensive income. Reflect such changes in **70** (all other components of accumulated other comprehensive income (loss)).

EXCLUDE from **48**, income from explicit fees and commissions. **INCLUDE** income from these fees and commissions as operating revenue in **29** and **45** and as sales of services in **81**.

2. Real estate companies — Include in 48 :

- impairment losses as defined by FASB ASC 360 (FAS 144), and
- goodwill impairment as defined by FASB ASC 350 (FAS 142).

EXCLUDE the income earned and expenses incurred from the sale of real estate you own. Such income should be reported as operating revenue in **29**, **45** and **79** and as sales of goods in **80**. Such expenses, including the net book value of the real estate sold, should be reported as cost of goods sold in **51**. Do not net the expenses against the revenues.

B. Special instructions for insurance companies

1. When there is a difference between the financial and operating data reported to the stockholders and the data reported in the annual statement to an insurance department, prepare the BE-11 on the same basis as the annual report to the stockholders.

Valuation should be according to normal commercial accounting procedures, not at rates promulgated by national insurance departments,

e.g., **INCLUDE** assets not acceptable for inclusion in the annual statement to an insurance department, such as: 1. non-trusted or free account assets, and 2. nonadmitted assets, including furniture and equipment, agents' debit balances, and all receivables deemed to be collectible. **INCLUDE** mandatory securities valuation reserves that are appropriations of retained earnings in the owners' equity section of the balance sheet, not in the liability section.

2. Instructions for reporting specific items

a. Sales or gross operating revenues, excluding sales taxes (45) — INCLUDE items such as earned premiums, annuity considerations, gross investment income, and items of a similar nature. **EXCLUDE** income from equity investments in unconsolidated business enterprises that is to be reported in **46** and **EXCLUDE** certain gains or losses that are to be reported in **48**.

b. Certain gains (losses) (48) — See Special Instructions, A.1.

c. Cost of goods sold or services rendered and selling, general, and administrative expenses (51) — INCLUDE costs relating to sales or gross operating revenues, such as policy losses incurred, death benefits, matured endowments, other policy benefits, increases in liabilities for future policy benefits, and other underwriting expenses.

d. Sales of services (81, column 1) — INCLUDE premium income and income from other services, if any.

Calculate premiums earned by companies engaged in insurance activities as direct premiums written (including renewals) net of cancellations, plus reinsurance premiums assumed, minus reinsurance premiums ceded, plus unearned premiums at the beginning of the year, minus unearned premiums at the end of the year.

e. Investment income (82, column 1) — Report that portion of sales or gross operating revenues that is investment income. However, report any gains or losses on investments, in accordance with **Special Instructions, A.1. See Additional Instructions** for Part IV, Section D, **82**, above to determine the location of the transactor of investment income.
