Personal Income and Outlays, July 2025

Personal income increased \$112.3 billion (0.4 percent at a monthly rate) in July, according to estimates released today by the U.S. Bureau of Economic Analysis. **Disposable personal income** (DPI)—personal income less personal current taxes—increased \$93.9 billion (0.4 percent) and **personal consumption expenditures** (PCE) increased \$108.9 billion (0.5 percent).

Personal outlays—the sum of PCE, personal interest payments, and personal current transfer payments—increased \$110.9 billion in July. **Personal saving** was \$985.6 billion in July and the **personal saving rate**—personal saving as a percentage of disposable personal income—was 4.4 percent.

The increase in **current-dollar personal income** in July primarily reflected an increase in compensation.

The \$108.9 billion increase in **current-dollar PCE** reflected increases of \$60.2 billion in spending on services and \$48.7 billion in spending on goods.

Changes in Monthly Consumer Spending, July 2025

Consumer Spending Increased \$108.9 Billion

From the preceding month, the **PCE price index** for July increased 0.2 percent. Excluding food and energy, the PCE price index increased 0.3 percent.

From the same month one year ago, the **PCE price index** for July increased 2.6 percent. Excluding food and energy, the PCE price index increased 2.9 percent from one year ago.

Percent Change in PCE Price Indexes From Month One Year Ago

Personal Income and Related Measures

[Percent Change From June to July]

Current-dollar personal income	0.4
Current-dollar disposable personal income	0.4
Real disposable personal income	0.2
Current-dollar personal consumption expenditures (PCE)	0.5
Real PCE	0.3
PCE price index	0.2
PCE price index, excluding food and energy	0.3

Annual Update of the National Economic Accounts

BEA will begin releasing results from the 2025 annual update of the National Economic Accounts, which include the National Income and Product Accounts as well as the Industry Economic Accounts, on September 25, 2025. The update will present revised statistics for GDP, GDP by Industry, and gross domestic income. Updated monthly personal income and outlays will be released on September 26, along with the August 2025 estimate. For details, refer to [Information on 2025 Annual Updates to the National, Industry, and State and Local Economic Accounts](#).

Next release: September 26, 2025, at 8:30 a.m. EDT
Personal Income and Outlays, August 2025

Technical Notes

Changes in Personal Income and Outlays for July

The July increase in personal income primarily reflected an increase in compensation. Wages and salaries as well as supplements increased, based on data from the Bureau of Labor Statistics (BLS) Current Employment Statistics (CES).

- Private wages and salaries increased \$77.5 billion, reflecting increases of \$77.4 billion in services-producing industries and \$0.2 billion in goods-producing industries. Government wages and salaries increased \$5.1 billion.
- Supplements to wages and salaries increased \$14.3 billion (mainly from employer contributions for employee pension and insurance funds).

Revisions to Personal Income

Estimates have been updated for April through June.¹ Revisions to compensation reflect updated BLS CES data on employment, hours, and earnings. Within government social benefits, Medicaid benefits paid for April through June reflected revised information from the Centers for Medicare & Medicaid Services.

¹ Revised wage and salary data from the Bureau of Labor Statistics' Quarterly Census of Employment and Wages program for January through March will be incorporated with the annual update of the National Economic Accounts on September 25. Updated monthly estimates of personal income and outlays will be released on September 26, along with the estimate for August 2025.

p Preliminary

r Revised

1. Includes actual employer contributions and actuarially imputed employer contributions to reflect benefits accrued by defined benefit pension plan participants through service to employers in the current period.

2. Social security benefits include old-age, survivors, and disability insurance benefits that are distributed from the federal old-age and survivors insurance trust fund and the disability insurance trust fund.

3. Medicare benefits include hospital and supplementary medical insurance benefits that are distributed from the federal hospital insurance trust fund and the supplementary medical insurance trust fund.

4. Consists of nonmortgage interest paid by households. Note that mortgage interest paid by households is an expense item in the calculation of rental income of persons.

5. The current-dollar measure is deflated by the implicit price deflator for personal consumption expenditures.

6. Population is the total population of the United States, including the Armed Forces overseas and the institutionalized population. The monthly estimate is the average of estimates for the first of the month and the first of the following month; the annual and quarterly estimates are averages of the monthly estimates.

p Preliminary

r Revised

1. Food consists of food and beverages purchased for off-premises consumption; food services, which include purchased meals and beverages, are not classified as food.

2. Consists of gasoline and other energy goods and of electricity and gas services.

3. Market-based PCE is a supplemental measure that is based on household expenditures for which there are observable price measures. It excludes most imputed transactions (for example, financial services furnished without payment) and the final consumption expenditures of nonprofit institutions serving households.
