

## Learn About Your State's Economy With GDP

### Part A: Nominal GDP

Use current-dollar (nominal) GDP by state to answer these questions. Find that by starting at [bea.gov/activities](https://www.bea.gov/activities) and then click on Part A: Nominal GDP.

Select the most recent year. Hit Next Step.

Click on the blue year at the top of the table to sort it from largest to smallest.

Find your state. Data are in millions of dollars (example: 100,000 in table = \$100 billion).

1. What was your state's gross domestic product for the most recent year available?

\_\_\_\_\_

2. Where did your state's GDP rank among all states? \_\_\_\_\_

3. What does this list tell you about your state's economy? \_\_\_\_\_

\_\_\_\_\_

4. What doesn't it tell you? \_\_\_\_\_
