/1/ Consists primarily of statistical revisions to the NIPAs that have not yet been incorporated into the BLS total factor productivity

/2/ BLS assigns a portion of NIPA proprietors' income to labor income.

/3/ BLS assigns a portion of NIPA TOPI, e.g., business property taxes and business motor vehicle

/4/ Prior to the 2016 TFP measures, lines 29 and 30 represented differences between the NIPA capital income and capital income based on the internal rental prices for four financial industries.

Starting with the 2016 TFP measures, these differences between the NIPA capital income and capital income based on the internal rental prices have been reconciled and BLS adjustment to property income for finance and insurance industries are now zero.

NOTE. Estimates from the BLS total factor productivity accounts reflect BLS estimates which were released on November 18, 2021.

The BEA estimates incorporate the results of the NIPA 2021 annual update, released on July 30, 2021, and the industry economic accounts, released December 22, 2021.
