BE-13 INITIAL REPORT ON A FOREIGN PERSON'S DIRECT OR INDIRECT ACQUISITION, ESTABLISHMENT, OR PURCHASE OF THE OPERATING ASSETS, OF A U.S. BUSINESS ENTERPRISE, INCLUDING REAL ESTATE

INSTRUCTIONS

The BE-13 survey provides comprehensive initial data concerning new foreign direct investment in the United States that may affect the U.S. and foreign economies.

I. REPORTING REQUIREMENTS

- A. Who must report BE-13, Initial Report on a Foreign Person's Direct or Indirect Acquisition, Establishment, or Purchase of the Operating Assets, of a U.S. Business Enterprise, Including Real Estate, must be filed by either:
 - 1. a U.S. business enterprise when a foreign person establishes or acquires directly, or indirectly through an existing U.S. affiliate, a 10 percent or more voting interest in that enterprise, including an enterprise that results from the direct or indirect acquisitions by a foreign person of a business segment or operating unit of an existing U.S. business enterprise that is then organized as a separate legal entity; or
 - the existing U.S. affiliate of a foreign person when it acquires a U.S. business enterprise, or a business segment or operating unit or a U.S. business enterprise, that the existing U.S. affiliate merges into its own operations rather than continuing or organizing as a separate legal entity.

NOTE – A complete BE-13 report must be filed for every new U.S. affiliate. However, separate Parts V and VI must be completed and filed for each foreign parent or existing U.S. affiliate that established or acquired a direct voting interest in the U.S. business enterprise, business segment, operating unit, or real estate.

B. Exemptions

- An existing U.S. affiliate is exempt from reporting if the total cost of the acquisition was \$3,000,000 or less, and does not involve the purchase of 200 acres or more of U.S. land. (If the acquisition involves the purchase of 200 acres or more of U.S. land, it must be reported regardless of the total cost of the acquisition.)
- 2. An established or acquired U.S. business enterprise, as consolidated, is exempt from reporting if its total assets (not the foreign parent's or existing U.S. affiliate's share) at the time of acquisition or immediately after being established, were \$3,000,000 or less and it does not own 200 acres or more of U.S. land. (If it owns 200 acres or more of U.S. land, it must report regardless of the value of total assets.)

If exempt under 1 or 2 above, you must file a Form BE-13, Supplement C, "Exemption Claim" to validate the exemption.

NOTE – If a U.S. affiliate meets either of the exemption criteria given above, please be aware that it may, nevertheless, be required to file on the annual and quarterly surveys of foreign direct investment in the United States (Forms BE-15, BE-605, and BE-605 Bank), which are also conducted by this Bureau (see 15 CFR Part 806).

Contact us at (202) 606-5577 if you need assistance to complete these forms, or if you are uncertain which forms need to be completed. All of these forms and instructions can be found on BEA's web site at **www.bea.gov/bea/surveys/fdiusurv.htm**.

If the U.S. affiliate is exempt from filing on the annual and quarterly surveys at this time, but exceeds the exemption levels for those surveys in the future due to internal growth, acquisitions, new infusions of capital, the purchase of land, etc., the U.S. affiliate should obtain and file the appropriate forms.

- **C. Real Estate –** The ownership of real estate is a business enterprise, and if the real estate is foreign owned, it is a U.S. affiliate of a foreign person. You must file a BE-13 report unless the enterprise is otherwise exempt. However:
 - Residential real estate held exclusively for personal use and not for profitmaking purposes is not subject to the reporting requirements. A residence which is an owner's primary residence that is then leased by the owner while outside the United States, but which the owner intends to reoccupy, is considered real estate held for personal use.
 - Ownership of U.S. residential real estate by a corporation whose sole purpose is to hold the real estate for the personal use of the owner(s) of the corporation is considered to be real estate held for personal use and not subject to the reporting requirements.

III. GENERAL INSTRUCTIONS

- A. Determining whether an individual is a foreign person or a U.S. person based on residence – An individual will be considered a resident of, and subject to the jurisdiction of, the country in which physically located. The following guidelines apply to individuals who do not reside in their country of citizenship:
 - Individuals who reside, or expect to reside, outside their country of citizenship for less than one year are considered to be residents of their country of citizenship.
 - Individuals who reside, or expect to reside, outside their country of citizenship for one year or more are considered to be residents of the country in which they are residing, except as provided in 3 below.
 - **3.** If an owner or employee of a business enterprise resides outside the country of location of the enterprise for one year or more for the purpose of furthering the business of the enterprise, and the country of the business enterprise is the country of citizenship of the owner or employee, then the owner or employee is considered a resident of the country of citizenship provided he or she intends to return within a reasonable period of time.
 - 4. Individuals and members of their immediate families who reside outside their country of citizenship as a result of employment by the government of that country diplomats, consular officials, members of the armed forces, etc. are considered to be residents of their country of citizenship.
- **B.** Reporting by intermediaries Accounts or transactions of a U.S. intermediary with a foreign beneficial owner are deemed to be accounts and transactions of the new U.S. affiliate with the foreign beneficial owner.

If a foreign direct investment in the United States is held, exercised, administered, or managed by a U.S. intermediary for the benefit of the foreign owner, the intermediary shall:

- Be responsible for reporting the required information for, and in the name of, the new U.S. affiliate, or
- Instruct the new U.S. affiliate to submit the required information

If the intermediary instructs the U.S. affiliate to submit the information, the intermediary is released from any further obligation to report. In this case, the intermediary must:

- Inform this Bureau in writing that the new U.S. affiliate will file the BE-13 report, and
- Give the new U.S. affiliate whatever information it may need to complete the report

IMPORTANT NOTE – If the new U.S. affiliate is not an entity from which a report can be requested (e.g., unimproved real property) then the intermediary of the foreign beneficial owner must report the investment on Form BE-13.

Consolidated reporting by a new U.S. affiliate – A new U.S. affiliate must file Form BE-13 on a fully consolidated domestic U.S. basis, including in the consolidation all U.S. business enterprises in which it directly or indirectly owns more than 50 percent of the outstanding voting interest. Exclude from the full consolidation all minority-owned U.S. business enterprises, and all foreign business enterprises owned by this U.S. affiliate. The fully consolidated entity is considered one U.S. affiliate.

Minority-owned U.S. business enterprises must file a separate Form BE-13 and must be included in the Form BE-13 of the U.S. affiliate that owns them on an equity basis, or cost basis if owned less than 20 percent (*See III.D. below*).

Any deviation from these consolidation rules must be approved in writing by BEA.

- D. Equity method of accounting Account for investments by a new U.S. affiliate in all foreign business enterprises and in U.S. business enterprises that are not fully consolidated as detailed below. Do not eliminate intercompany accounts if the equity method is used.
 - Generally, investments in those business enterprises owned 20 percent or more (including those that are majority-owned) should be reported using the equity method. However, immaterial investments may be reported using the cost method provided this method is consistent with normal reporting practice.
 - Investments in those business enterprises owned less than 20 percent normally should be reported using the cost method.

E. Calculation of ownership interest – All direct and indirect lines of ownership interest held by a foreign person in a given U.S. business enterprise must be summed to determined whether the enterprise is a U.S. affiliate of the foreign person for purposes of reporting.

A foreign parent's percentage of indirect ownership interest in a given U.S. business enterprise is the product of the direct ownership percentage of the foreign parent in the first U.S. business enterprise in the ownership chain times that first enterprise's direct ownership percentage in the second U.S. business enterprise times each succeeding direct ownership percentage of each other intervening U.S. business enterprise in the ownership chain between the foreign parent and the given U.S. business enterprise.

If there is more than one line of ownership from the foreign parent, or if other members of the affiliated foreign group hold direct or indirect lines of ownership in the U.S. business enterprise, then all ownership interest lines must be summed to determine if the U.S. business enterprise is a U.S. affiliate of a foreign person.

F. Accounting methods and records – Follow generally accepted U.S. accounting principles, unless otherwise specified. Corporations should generally use the same methods and records that are used to generate reports to stockholders except where the instructions indicate a variance.

Prepare reports for unincorporated persons on an equivalent basis.

- **G. Estimates** If actual amounts are not available, supply estimates and label them as such. When an item cannot be fully subdivided as required, supply a total and an estimated breakdown of the total.
- **H. Space on form insufficient** When space on a form is insufficient to permit a full answer to any item, submit the required information on supplimentary sheets, appropriately labeled and referenced to the item number and the form or supplement.
- I. Report currency amounts in U.S. dollars, rounded to thousands (omitting 000). **Do not enter** amounts in the shaded portions of each line.

EXAMPLE: If amount is \$3,334,615.00, report as:

Bil.	Mil.	Thous.	Dols.
	3	335	

- J. Non-currency amounts, such as the number of acres and the number of employees, should be rounded to the nearest whole unit.

- L. Use parentheses to indicate negative numbers.
